

Florida Power
A Progress Energy Company

50-302

October 3, 2001

Notice to all offsite Controlled Copyholders:

**NUCLEAR DOCUMENT SERVICES of FLORIDA POWER CORP.
is changing the way we do business!**

In order to complete a transition item associated with adopting the Document Control Program common to all Progress Energy plants, we are changing our distribution methodology.

All offsite "Controlled" copy distribution will be transferred to "Select" distribution. All documents that are transferred to "Select" will be maintained solely by the copyholder. The copyholder is responsible for updating and maintaining the documents.

The documents that you currently receive will not be changed, the only difference that you will see is the documents will no longer be stamped "Controlled". You will no longer need to return a signed transmittal.

If you currently receive distribution for documents that you no longer need, please let us know and we will delete these items from your distribution.

Should you have any questions, please contact Sissy Nelson at 352-563-4927.

Sincerely,

Elizabeth A. (Sissy) Nelson
Supervisor-Nuclear Records/Document Control
Florida Power Corp - Crystal River Unit 3
