DOCKET NUMBER

~~PETITION RULE~~ PRM 50-74
(66FR 51884)October 16, 2001 (11:39AM)
OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

PRM-50-74. The petition requests that the NRC amend its regulations regarding most current industry consensus standard for decay heat power, as well as any subsequent NRC-endorsed revisions to this standard.

This Petition should be denied. The entire body of Emergency Core Cooling System (ECCS) Evaluation Models should be reviewed by the NRC rather than a piecemeal approach of selecting only those aspects that may be unduly restrictive. Other aspects are perhaps insufficiently restrictive.
