RE: License SMB-911, Docket #40-7580
Site Organization (Addendum to March 2, 2001 Letter)

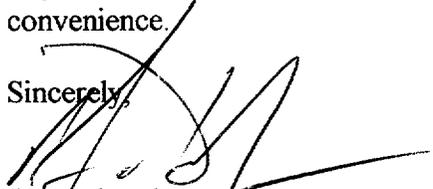

Dear Leslie:

Thank you for speaking with us on 10/3/01 regarding the Open IFI (40-7580/9901-01), which addresses the education and experience requirements for the POM (Plant Operations Manager) in section 2.1.1.4 of the License. Per your request, this letter provides formal notification as an addendum to our March 2, 2001 letter to Mr. Mohammad Haque, NRC Project Manager.

As discussed with you and Inspector Robert Evans of District IV, and mutually agreed to in our telephone conversation on Wednesday, October 3, 2001, Fansteel will address this issue in our upcoming license renewal. We expect to start this activity in January of 2002. You may expect our license renewal to be submitted on or before the target date of July 30, 2002. Fansteel does intend to set up "working group calls" in preparation for the renewal process.

If you should need further information, please contact Keyton Payne, or me at your convenience.

Sincerely,

A. Fred Dohmann,
General Manager
