October 15, 2001

The Honorable Richard A. Meserve, Chairman  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Chairman Meserve:

As a result of the Louisiana Department of Environmental Quality's re-engineering effort, Louisiana finds it necessary to appoint a new state liaison officer to the Nuclear Regulatory Commission. The current state liaison officer, Mr. Ronnie Wascom, is serving the department in another area where he no longer has direct involvement in the radiation protection program. Therefore, please be advised that Mr. Michael Henry, senior environmental scientist, permitting division, is hereby appointed to serve as the NRC state liaison officer.

The state of Louisiana appreciates the Commission's efforts to keep us informed of all actions affecting Louisiana and, through Mr. Henry, we will continue to keep the NRC informed of our actions as they may affect the NRC and other agreement states.

Thank you for your attention to this matter.

Sincerely,

M.J. "Mike" Foster, Jr.
