Dear Mr. Beckham:

On June 27 and June 28, 1985, the Commission issued Amendments Nos. 109 and 47 and Amendments Nos. 110 and 48 to Facility Operating Licenses Nos. DPR-57 and NPF-5 for the Edwin I. Hatch Nuclear Plant, Units Nos. 1 and 2. Many of the Technical Specification pages issued with these amendments did not contain the previous amendment numbers usually found at the bottom righthand corner of the page. We find this information to be especially helpful at times; therefore, we have added it to the pages as appropriate and have reissued these amendments.

Sincerely,

~~Original signed by~~

Dear Mr. Beckham:

The Commission has issued the enclosed Amendments Nos. 109 and 47 to Facility Operating Licenses Nos. DPR-57 and NPF-5 for the Edwin I. Hatch Nuclear Plant, Units Nos. 1 and 2. The amendments consist of changes to the Technical Specifications (TSs) in response to your applications dated July 9, 1982, October 24 and December 20, 1983, and April 24, 1984.

The amendments revise the Technical Specifications to reflect corporate and plant staff reorganization to change the composition of the Plant Review Board, to delete the Senior Reactor Operator license requirement for the Plant Manager, to change the level of approval for plant procedures, and to clarify procedures for review by the Plant Review Board.

A copy of the Safety Evaluation is also enclosed. Notice of Issuance will be included in the Commission's next Monthly Notice.

Sincerely,

A handwritten signature in cursive script that reads "George W. Rivenbark".
