White Plains, NY 10601

SUBJECT: INDIAN POINT NUCLEAR GENERATING STATION, UNIT NOS. 1 AND 2 - STORAGE OF MIXED WASTE IN ACCORDANCE WITH NRC REQUIREMENTS

Dear Mr. Kansler:

By letter dated September 20, 2001, Entergy Nuclear Operations, Inc. requested a letter of concurrence with regard to the storage of mixed waste at the Indian Point Nuclear Generating Station, Unit Nos. 1 and 2 (IP1 and IP2).

On September 5, 2001, an Administrative Order on Consent between New York State Department of Environmental Conservation (NYSDEC) and Consolidated Edison Company of New York, Inc. (Con Edison) was executed to address Con Edison's storage of mixed waste, and Entergy Nuclear Indian Point 2, LLC's (ENIP2) continued storage of the material.

The Order on Consent requires Con Edison to request from the NRC a written concurrence that such material is stored in accordance with applicable NRC requirements. In satisfaction of the Order on Consent, ENIP2 requested that the NRC provide ENIP2 and the NYSDEC with a written concurrence that the mixed waste at IP1 and IP2 is being stored in compliance with the applicable NRC requirements.

The mixed waste is stored in the IP1 containment and other locations at the site. The mixed waste originated from the cleaning of various areas of the IP1 spent fuel pools.

The NRC conducted an on-site inspection of the licensee's radioactive material processing and transportation program at IP1 and IP2, during the period of October 1 through 5, 2001. The inspection scope, criteria, and results are documented in NRC Inspection Report 50-247/01-09, dated November 9, 2001. The NRC inspection report indicates that no findings of significance were identified.

If you have any further questions, please contact me at (301) 415-3166.

Sincerely,

/RA/

John L Minns, Project Manager, Section 1
