

FORMAT FOR RES DIRECTOR'S PROJECT REVIEW

TECHNICAL:

Job Code: G-6590 Title: Critical Evaluation of Linear Dose Hypothesis

Contractor/Lab (current or proposed): NCRP

If ongoing project, rate contractor performance (check one):
Above average Average Below average Just Starting

Principle research product(s) for this year and/or next:

Critical Scientific Assessment of Studies on Radiation Effects at Low Doses
Suggest "Level-of-Certainty" Re. Linear - No Threshold Model
Responds to Current Debate Re. No Threshold, Hormesis, etc.

*Follow-up to NRC
Funded work on
Cellular-Molecular
Effects*

Research product(s) will be used by NRC (office) NCRP Report

Critical date(s) to deliver research product(s) (if any):

Any problems or issues: No written input, discussion topic only.

FINANCIAL (\$000):

Budget: FY 1996 75K (if any) FY 1997 (2-year option at 75K per year 1997 and 1998)

Uncommitted FY 1996 funds — (if any)

Uncosted contractor balance (a/o 3/31/96) ~60K (if any)

Unexpended balance (a/o 3/31/96) — (if any)*

Expenditure rate for first half of FY 1996 ~7.5 per month*

Rationale for amount of funds budgeted in FY 1997: No written input, discussion topic only.

* To be provided by FMPAS at the meeting using data from the NRC's accounting system.
