

NUCLEAR REGULATORY COMMISSION

10 CFR Part 72

RIN 3150 - AG 88

List of Approved Spent Fuel Storage Casks: Standardized NUHOMS® -24P, -52B,  
and -61BT Revision

AGENCY: Nuclear Regulatory Commission.

ACTION: Proposed rule.

SUMMARY: The Nuclear Regulatory Commission (NRC) is proposing to amend its regulations revising the Transnuclear West, Inc. Standardized NUHOMS® -24P, -52B, and -61BT cask system listing within the “List of Approved Spent Fuel Storage Casks” to include Amendment No. 4 to Certificate of Compliance (CoC) No. 1004. Amendment No. 4 would allow the storage of low burn-up spent fuel in the NUHOMS® -24P canister. In addition, the Technical Specifications (TS) would be revised to correct administrative errors regarding the width dimension of the spent fuel. Specific changes would be made to TS 1.2.1 and 1.2.15, Tables 1-1a, 1-1b, 1-1c, 1-1d, 1-2a, and 1-2c, and Figure 1-1. The CoC would be revised to change the certificate holder from Transnuclear West, Inc. to Transnuclear Inc. Minor editorial changes would also be made to the CoC.

#### SUPPLEMENTARY INFORMATION:

For additional information see the direct final rule published in the final rules section of this Federal Register.

#### Procedural Background

This rule is limited to the changes contained in Amendment 4 to CoC No. 1004 and does not include other aspects of the Standardized NUHOMS™ -24P, -52B, and -61BT cask system design. The NRC is using the direct final rule procedure to issue this amendment because it represents a limited and routine change to an existing CoC that is expected to be noncontroversial. Adequate protection of public health and safety continues to be ensured.

Because NRC considers this action noncontroversial and routine, the proposed rule is being published concurrently as a direct final rule. The direct final rule will become effective on **(insert date 75 days after publication in the Federal Register)**. However, if the NRC receives significant adverse comments by **(insert 30 days after publication in the Federal Register)**, then the NRC will publish a document that withdraws this action and will address the comments received in response to the proposed amendments published elsewhere in this issue of the Federal Register. A significant adverse comment is a comment where the commenter explains why the rule would be inappropriate, including challenges to the rule's underlying

premise or approach, or would be ineffective or unacceptable without a change. A comment is adverse and significant if:

(1) The comment opposes the rule and provides a reason sufficient to require a substantive response in a notice-and-comment process. For example, in a substantive response:

(a) The comment causes the NRC staff to reevaluate (or reconsider) its position or conduct additional analysis;

(b) The comment raises an issue serious enough to warrant a substantive response to clarify or complete the record; or

(c) The comment raises a relevant issue that was not previously addressed or considered by the NRC staff.

(2) The comment proposes a change or an addition to the rule, and it is apparent that the rule would be ineffective or unacceptable without incorporation of the change or addition.

(3) The comment causes the NRC staff to make a change to the CoC or TS.

These comments will be addressed in a subsequent final rule. The NRC will not initiate a second comment period on this action.
