November 2, 2001

MEMORANDUM TO: Patricia K. Holahan, Chief
Rulemaking and Guidance Branch
Division of Industrial and Medical
Nuclear Safety, NMSS

FROM: E. William Brach, Director /RA/ Original signed by: C. Miller
Spent Fuel Project Office, NMSS

SUBJECT: RULEMAKING FOR THE STANDARDIZED ADVANCED NUHOMS® SYSTEM

I am forwarding the proposed Certificate of Compliance (CoC) No. 1029, and the preliminary Safety Evaluation Report (SER) for the Standardized Advanced NUHOMS® System, for inclusion in the rulemaking package for this cask. The proposed CoC, Technical Specifications (appendices to the CoC) and preliminary SER have been placed in ADAMS (see reference below) and are available for your use in the rulemaking package. The Spent Fuel Project Office will designate these documents as Official Agency Records after the EDO approves publication of the direct final rulemaking.

The Standardized Advanced NUHOMS® System is similar to the Standardized NUHOMS® System. The differences between the systems are that the Standardized Advanced NUHOMS® System has improved shielding and the ability to withstand a higher seismic response spectrum. In addition, the 24 PT1 dry shielded canister, which will be stored in the Standardized Advanced NUHOMS® System is designed to be transportable.

CONTACTS: Tim Kobetz, SFPO/NMSS
(301) 415-8538

Philip G. Brochman, SFPO/NMSS
(301) 415-8592

Docket No.: 72-1029

ADAMS Reference: Accession No. ML012250290
