SUBJECT: PROJECT NUMBER ASSIGNMENT FOR GAS TURBINE - MODULAR
HELIUM REACTOR PRE-APPLICATION REVIEW

This memorandum is a request for an assigned project number for all documents related to the Gas Turbine - Modular Helium Reactor (GT-MHR) pre-application review. This would include records that involve correspondence with General Atomics Company and the Department of Energy on the GT-MHR pre-application review, internal interoffice memoranda related to the conduct of the review, and any outside organizations or individuals providing formal communications on any aspect of the review.

It is my understanding that, currently, documents received in the file center that do not reference a specific docket or project number are filed by subject. It would be most helpful if all documents related to the GT-MHR review were filed together. General Atomics Company and the Department of Energy will be requested to reference this project number on all correspondence that relates to this activity.
