**UPDATE OF PFS UTILITIES
DOCKET NO. 72-22 / TAC NO. L22462
PRIVATE FUEL STORAGE FACILITY
PRIVATE FUEL STORAGE L.L.C.**

Reference: October 31, 2001 conference call between S&W, and the NRC

In the above referenced telephone call the NRC ask if there had been any changes to the list of PFS member utilities and reactors currently presented in Chapter 1 of the PFSF Environmental Report (ER).

There are no changes to the list of PFS member reactors, however two member utility names have changed as indicated below:

- Consolidated Edison Company of New York is revised to Entergy Corporation
- Northern States Power Company is revised to Xcel Energy Inc.

A draft revision of ER Chapter 1, page 1.2-3 that depicts these changes is attached. We have also attached a draft revision of License Amendment Chapter 1, page 1-11 that revises two of the names on the PFS Board of Managers. These changes will be incorporated in License Amendment #23 to the PFS License Application that will be issued in November 2001.

If you have any questions regarding this submittal, please contact me at 303-741-7009.

Sincerely,

John L. Donnell
Project Director
Private Fuel Storage L.L.C.

Following is information on the remaining fuel storage capacity available in fuel pools of PFS member utilities, and projected dates when full-core offload capability will be lost, (information regarding the remaining storage capacity and projected date of loss of full-core offload capability is current as of November 2000):

Utility	Reactor	Remaining storage capacity (no. spaces)	Projected date of loss of full-core offload capability
Entergy Corporation	Indian Point Unit 1	Shutdown; fuel onsite	N/A (shutdown)
	Indian Point Unit 2	385	2004
Southern California Edison Co.	San Onofre Unit 1	Shutdown; fuel onsite ^a	N/A (shutdown)
	San Onofre Unit 2	480	2006
	San Onofre Unit 3	524	2006
Genoa FuelTech Inc.	La Crosse Boiling Water Reactor	Shutdown; fuel onsite	N/A (shutdown)
Indiana-Michigan Company (American Electric Power)	D. C. Cook Units 1 and 2	1553 (shared)	2010 (both units)
Florida Power and Light Company	St. Lucie Unit 1	483	2005
	St. Lucie Unit 2	528	2007
	Turkey Point Unit 3	520	2010
	Turkey Point Unit 4	501	2011
GPU Nuclear Corporation	No Reactors	N/A	N/A
Xcel Energy Inc.	Monticello	971	2006
	Prairie Island Units 1 and 2	140 (shared)	2007 (both units)
Southern Nuclear Operating Co.	Farley Unit 1	376	2006
	Farley Unit 2	560	2008
	Hatch Units 1 and 2	859 (shared)	^b
	Vogtle Units 1 and 2	2,066 (shared)	2014 (both units)

^a Pool is full; additional Unit 1 assemblies are being stored on an interim basis in Units 2 and 3 pools and in space leased at the General Electric Morris Facility through 2002.

^b Southern Nuclear Operating Co. has obtained a license for an ISFSI to store spent fuel from Hatch Units 1 and 2, and has transferred some spent fuel from the Hatch reactors' fuel pool out to the dry storage facility where the fuel is stored in storage casks. As a result of this on-site dry storage capability, full-core offload capability is planned to be maintained at all times for Hatch Units 1 and 2, so there is no projected date for loss of full-core offload capability.

PRIVATE FUEL STORAGE L.L.C.

Board of Managers

November, 2001

Ronald Cocherell Southern Nuclear Operating Company	J. A. Stall Florida Power and Light Company
Paul Grigaux GPU Nuclear	Frank Rives Entergy Corporation
John D. Parkyn Genoa FuelTech, Inc.	Paul D. Myers Southern California Edison
Doug Malin Indiana Michigan Power	Scott Northard Xcel Energy Inc.

Principal Officer of the Company

John D. Parkyn
Chairman of the Board
