Mr. Stanley R. Marshall, Supervisor
Radiological Health Section
Bureau of Health Protection Services
Nevada State Health Division
1179 Fairview Drive, Suite 102
Carson City, NV 87901-5405

Dear Mr. Marshall:

We have reviewed the proposed regulation of the Nevada Administrative Code Chapter 459 (Radiological Health Rules), (NAC 459.321.2), submitted to the Nuclear Regulatory Commission (NRC) by letter dated July 12, 2001. The proposed regulation is in response to the one amendment identified in the enclosed State Regulation Status (SRS) Data Sheet. The regulation was reviewed by comparison to the equivalent NRC regulations in 10 CFR Part 20.1101. We discussed our review of the regulation with Larry Boschult on September 24, 2001.

As a result of our review, we have no comments. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that a State regulation meets the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final State regulation. However, we have determined that if your proposed regulation is adopted without significant change, it would meet the compatibility and health and safety categories established in the Office of State and Tribal Programs (STP) Procedure SA-200.

The SRS Data Sheet summarizes our knowledge of other Nevada regulations. Please let us know if you note any inaccuracies or have any comments on the information contained in the SRS Data Sheet. This letter including the SRS Data Sheet is posted on the STP Web Site: <http://www.hsrcd.ornl.gov/nrc/rulemaking.htm>.

If you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact me or Linda Mclean at NRC Region IV, at 817-860-8116.

Sincerely,

/RA/

Frederick C. Combs, Deputy Director
Office of State and Tribal Programs
