

MEMORANDUM TO: Eric J. Leeds, Acting Chief
Licensing and International Safeguards Branch
Division of Fuel Cycle Safety
and Safeguards, NMSS

FROM: Michael Tokar, Acting Chief
Special Projects Branch **/RA/**
Division of Fuel Cycle Safety
and Safeguards, NMSS

SUBJECT: TECHNICAL ASSISTANCE REQUEST TO SUPPORT THE SECOND
DRAFT OF NUREG-1718

I am requesting technical assistance from your staff to prepare the second draft of NUREG-1718, "Standard Review Plan for the Review of an Application for a Mixed Oxide (MOX) Fuel Fabrication Facility."

CASEWORK/RITS/TAC: 70-3098 0308 211AO L20356 MOX Standard
Review Plan

REQUESTED ACTION: The Special Projects Branch will be revising draft NUREG-1718 to incorporate public comments and to ensure consistency with 10 CFR Part 70 and NUREG-1520, "Standard Review Plan for the Review of a License Application for a Fuel Cycle Facility."

I am requesting limited assistance from your staff through the use of consultations. These consultations would be used to discuss recent changes, to Part 70 and NUREG-1520, as well as to discuss how your staff resolved comments (if any) on NUREG-1520. These consultations would require minimal time but would help ensure that NUREG-1520 and NUREG-1718 remain consistent.

In addition, I am requesting technical assistance from Mr. Dennis Damon in the area of integrated safety analysis. Mr. Damon would assist in responding to comments on the first chapter of NUREG-1718 and would assist in revisions. Since Mr. Damon worked on developing the first chapter for NUREG-1520, as well as providing assistance for the first portion of NUREG-1718, his support for this effort would be invaluable.

Your assistance is greatly appreciated. Please respond by April 05, 2000.
