SUBJECT: Meeting Summary - Weekly FSU Status Meeting, June 27, 2000

Purpose:

The purpose of this note is to document the results of the weekly FSU Status Meeting, held on Thursday, June 15, 2000. A list of attendees is included as an Attachment.

Discussion:

Janice Dunn Lee began the meeting by noting that OIP's draft letter to Congress responding to the recommendations in the GAO report is being reviewed by the Commissioners before it is signed by the Chairman. On a related matter, Janice said that she expects the Commission to ask for more information on the issues identified in the GAO report during the Commission Briefing on NRC International Activities, scheduled for August 15. She said that it would be wise to prepare information for the briefing that describes the problems, recommendations, corrective actions underway and planned, and how OIP expects to avoid the apparent problems identified by GAO in the future. The information should be succinct, she said.
