

November 16, 2001

Mr. William J. Sinclair, Director
Division of Radiation Control
Department of Environmental Quality
168 North 1950 West, P.O. Box 144850
Salt Lake City, Utah 84114-4850

Dear Mr. Sinclair:

As requested, we have reviewed the proposed regulations R313-12, General Provisions; R313-15, Standards for Protection Against Radiation; R313-22, Specific Licenses; R313-32, Medical Use of Radioactive Material; and R313-34, Requirements for Irradiators, submitted by your letter dated June 6, 2001. The proposed regulations are in response to the three amendments identified in the enclosed State Regulation Status (SRS) Data Sheet.

The regulations were reviewed by comparison to the equivalent NRC regulations in 10 CFR Part 20, Sections 20.1003, 20.1101, 20.1201, 20.1206, 20.1208, Subpart G, Subpart H, 20.1903, 20.2006, 20.2202, Part 31, Section 31.5, Part 32, Part 35, Sections 35.641 and 643, and Part 36. We also discussed our review of the regulations with Mr. Craig Jones on August 1, 2001.

As a result of our review, we have one comment that has been identified in the Enclosure. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that a State regulation meets the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final State regulation. However, we have determined that if your proposed regulations were adopted incorporating the comments and without other significant change, they would meet the compatibility and health and safety categories established in Office of State and Tribal Programs (STP) Procedure SA-200, revised February 6, 2001.

We request that when the proposed regulations are adopted and published as final regulations, a copy of the "as published" regulations be provided to us for review. As requested in STP Procedure SA-201, *Review of State Regulations* (November 10, 1998), please highlight the final changes and send a hard copy to STP.

The SRS Data Sheet summarizes our knowledge of other Utah regulations. Please let us know if you note any inaccuracies or have any comments on the information contained in the SRS Data Sheet. This letter including the SRS Data Sheet is posted on the STP Web Site: <http://www.hsrdr.ornl.gov/nrc/rulemaking.htm>.

William J. Sinclair

November 16, 2001

If you have any questions regarding the comments, the compatibility and health categories, or any of the NRC regulations used in the review, please contact me or Linda McLean at (817) 860-8116 or mim1@nrc.gov.

Sincerely,

/RA/

Frederick C. Combs, Deputy Director
Office of State and Tribal Programs

**COMMENTS ON PROPOSED UTAH REGULATIONS
AGAINST COMPATIBILITY AND HEALTH AND SAFETY CATEGORIES**

State Regulation ¹ or SSR	NRC Regulation or SSR ²	RATS ID	Category	Subject and Comments
R313-15-208 (3) (b)	20.1208 (c)	1998-5	B	<p>Dose to Embryo Fetus</p> <p>The phrase “mother’s lower torso region” has been added to the instructions for calculating the dose to the fetus. This amount could be different from the amount calculated by 20.1208. Accordingly, R313-15-208 (3)(b) needs to be revised to reflect 10 CFR 20.1208(c)(1) and (2) to meet compatibility.</p>

¹ For other generic legally binding requirements, change State Regulation to LBR.

²Use NRC regulation when the review is conducted against the equivalent NRC regulation. Use SSR when the review is conducted against the SSR equivalent which NRC has concurred.

STATE REGULATION STATUS

State: Utah

[3 proposed amendments (6/6/01) reviewed are identified by a ★ at the beginning of the equivalent NRC regulation.]
