

Docket Nos.: 50-327
and 50-328

28 OCT 1986

Mr. C. C. Mason
Acting Manager of Nuclear Power
Tennessee Valley Authority
6N 38A Lookout Place
1101 Market Street
Chattanooga, Tennessee 37402-2801

Dear Mr. Mason:

SUBJECT: CHANGE TO OPERATING LICENSE AMENDMENTS FOR SEQUOYAH NUCLEAR PLANT,
UNITS 1 AND 2

My September 16, 1986, letter forwarded Amendments 46 and 38 to Facility Operating License Nos. DPR-77 and DPR-79, respectively. Also enclosed with that letter was a safety evaluation supporting the amendments.

The following paragraph was inadvertently omitted from the safety evaluation and should be added:

"The licensee also proposed to add "(Wide Range)" after Instrument 3, "Containment Pressure" and Instrument 5, "Reactor Coolant Pressure" in Tables 3.3-10 and 4.3.7 (for both units). The above changes are being requested to specifically identify that the containment pressure and reactor coolant pressure instruments included in these technical specification tables are those required by NUREG-0737, Item II.F.1, Attachment 4 (i.e., wide range). On the basis that these changes add clarification to the existing plants' Technical Specifications, the staff finds them acceptable for both units as proposed."

Sincerely,

Carl R. Stahle, Project Manager
