

November 21, 2001

Mr. James Ellis
Site Manager
General Electric - Morris Operation
7555 E. Collins Rd
Morris, IL 60450

SUBJECT: MORRIS OPERATION SECURITY

Dear Sir:

The purpose of this letter is to acknowledge receipt of your letter on the above subject dated November 15, 2001. By submitting your November 15 letter, you have fulfilled a commitment made in your earlier letter of October 24, 2001, which we confirmed in our letter of October 25, to provide an evaluation of vehicle control measures for the Morris facility. You have also provided updated information regarding other matters associated with the security of the Morris facility.

We recognize that this evaluation was performed and the information was submitted voluntarily at NRC request. We recognize also that the criteria which we requested you to use as a reference in evaluating vehicle controls at the Morris facility do not currently have a regulatory application to the facility.

The technical and other information you have provided, and the conclusions you have reached, will be subject to further review by appropriate NRC specialists. Should we have any questions regarding your evaluation, or if we identify potential problems, we will contact you.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the *Publicly Available Records (PARS) component of NRC's document system (ADAMS)*. ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Your continued cooperation with us in this important matter is appreciated.

Sincerely,
/RA/
Bruce L. Jorgensen, Chief
Decommissioning Branch
