Dear Ms. Villar,

We have a service technician on site at the location described on the accompanying Form 241. He found out that the problem our customer is having is due to a component inside a registered device. It is necessary for him to proceed today and Friday with removing the defective component, which does not in any way directly involve the sealed source.

If you have any questions, please contact me at 301-948-2450 ext. 400. Also, at your convenience, would you please give me your phone number. For some reason I still have Cheryl Buracker's number. Thank you.

Sincerely,

Dennis Jones
Asst. RSO
