SUBJECT: KEWAUNEE NUCLEAR POWER PLANT - REVIEW OF POTENTIAL FOR A RELIEF REQUEST FOR APPROVAL OF AMERICAN SOCIETY OF MECHANICAL ENGINEERS (ASME) SECTION IX CODE CASES 2142-1 AND 2143-1 FOR REPLACEMENT STEAM GENERATOR WELDS (TAC NO. MB3415)

Dear Mr. Reddemann:

By telephone on November 16, 2001, the Nuclear Management Company, LLC (NMC) requested a potential relief request for the Nuclear Regulatory Commission (NRC) to review and approve the use of ASME Section IX Code Cases 2142-1 and 2143-1 for Replacement Steam Generator welds at the Kewaunee Nuclear Power Plant (KNPP).

Mr. Tom Webb of the NMC staff informed the NRC staff via telephone on November 19, 2001, that the NMC staff reviewed ASME Code Section III and Section IX more closely. Mr. Webb stated that the NMC staff determined that KNPP did not need a relief request for Code Cases 2142-1 and 2143-1. Based on this information, this completes the NRC staff's review of your request via telephone on November 16, 2001.

This completes TAC number MB3415.

Sincerely,

/RA/

John G. Lamb, Project Manager, Section 1
Project Directorate III
Division of Licensing Project Management
Office of Nuclear Reactor Regulation
