UNITED STATES NUCLEAR REGULATORY COMMISSIONTENNESSEE VALLEY AUTHORITYDOCKETS NOS. 50-327, 50-328NOTICE OF WITHDRAWAL OF APPLICATIONS FORAMENDMENTS TO FACILITY OPERATING LICENSES

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of the Tennessee Valley Authority (TVA) to withdraw the following applications for proposed amendments to Facility Operating Licenses Nos. DPR-77 and DPR-79 for the Sequoyah Nuclear Plant, Units 1 and 2, located in Hamilton County, Tennessee.

- (1) A portion of the August 16, 1982, application would have revised the Technical Specifications (TS) relating to the substitution of the use of design flow rates for the flow rate monitors in TS Table 3.3-13 and Surveillance Requirement 4.3-9. This is a convenience item to TVA.
- (2) A portion of the July 21, 1983, application would have revised the TS relating to hydrogen igniter testing in TS Surveillance Requirement 4.5.4.3.6. This is a convenience item to TVA and will be resubmitted at a later date.
- (3) The June 13, 1984, application, being withdrawn in its entirety, would have revised the TS relating to Table 3.6-2, to change the containment isolation signal for the containment radiation monitors from containment ventilation isolation to Phase B isolation. This is a convenience item to TVA. TVA is reworking this engineering change and will resubmit any required TS changes in accordance with 10 CFR 50.59.

- (4) The October 22, 1984, application would have revised the TS relating to the list of secondary containment bypass penetrations in Table 3.6-1. Several potential errors have been identified in this submittal; therefore, TVA will reevaluate the request, modify it as necessary, and resubmit the TS change request prior to restart.
- (5) A portion of the April 7, 1986, application would have deleted TS Table 3.3-11 on fire protection. TVA is preparing a revision to the Updated Final Safety Analysis Report (UFSAR) to incorporate a description of the fire protection program following the guidance of Generic Letter 86-10. TVA will submit appropriate future changes to the TS, as recommended in Generic Letter 86-10, when the UFSAR changes are complete. This is a convenience item to TVA.

The Commission has issued Notices of Consideration of Issuance of Amendments to Licenses published in the FEDERAL REGISTER on December 31, 1984 (49 FR 50826), October 12, 1983 (48 FR 46460), September 28, 1984 (49 FR 38410), December 31, 1984 (49 FR 50826), and August 27, 1986 (51 FR 30581), respectively, for the above applications. By letter dated May 15, 1987, TVA requested to withdraw its applications for proposed amendments as described above. Pursuant to 10 CFR 2.107, the Commission has granted TVA's request.

For further details with respect to this action, see (1) the applications for amendment dated August 16, 1982, July 21, 1983, June 13 1984, October 22, 1984, and April 7, 1986 and (2) TVA's letter dated May 15, 1987, withdrawing the applications for license amendments. The above documents are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington D.C., and at the Local Public Document Room in the Chattanooga-Hamilton County Library, 1001 Broad Street, Chattanooga, Tennessee 37402.

Dated this 1 day of July 1987.
