Subject: Fwd: Re: IP2 SG

I asked Sharon to add it to next Wednesday's agenda, but we can drop it until NRR completes its initial ARB. WE can then address whatever comes out of the meeting. Maybe OI might want to listen by phone.

>>>David Vito 11/07 7:38 AM >>>

[redacted] It appears that Mr. Johnson would like to have some more discussion on this before we take any action up here in Region I, i.e., such as having an initial ARB to discuss this as an SSW item. I'm not sure how all of the lines of internal communication are being handled with IP-2 issues, so I'm looking to the staff to give me direction on this. I will hold scheduling an ARB on this until I get further direction from the staff.
