Gentlemen:

The Commission has filed the enclosed Notice of Proposed Issuance of Amendments to Facility Operating Licenses with the Office of the Federal Register for publication. The proposed amendments would revise provisions in the Technical Specifications relating to fuel residence time and control rod insertion limits to allow operation through core cycle 2 for Turkey Point Nuclear Generating Unit 3, in accordance with your requests of October 24, 1974, and October 30, 1974.

Sincerely,

Original Signed

George Lear, Chief
Operating Reactors Branch #3
Directorate of Licensing

U. S. ATOMIC ENERGY COMMISSION

DOCKETS NOS. 50-250 AND 50-251

FLORIDA POWER AND LIGHT COMPANY

NOTICE OF PROPOSED ISSUANCE OF AMENDMENTS

TO FACILITY OPERATING LICENSES

The Atomic Energy Commission (the Commission) is considering the issuance of amendments to Facility Operating Licenses No. DPR-31 and DPR-41 issued to Florida Power and Light Company (the licensee) for operation of the Turkey Point Nuclear Generating Units 3 and 4 located in Dade County, Florida.

The amendments would revise the Technical Specifications in accordance with the licensee's applications dated October 24, 1974 and October 30, 1974. The revisions would modify those provisions in the Technical Specifications relating to fuel residence time and control rod insertion limits to allow operation through core cycle 2 for Turkey Point Nuclear Generating Unit 3 following refueling. The extended fuel residence time will allow operation of Unit 3 through core cycle 2 with cycle 1 fuel. The operating limits for Unit 4 set forth in its Technical Specifications will remain unchanged although the Technical Specifications will be modified to reflect the revisions to the Unit 3 Technical Specifications.

Within 30 days after publication of this notice in the FEDERAL REGISTER on _____, any member of the public whose interest may be affected by the proceeding may file a request for a public hearing in the form of a petition for leave to intervene with respect to

whether the amendments to the facility operating licenses should be issued.

Petitions for leave to intervene must be filed under oath or affirmation and in accordance with the provisions of Section 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of the FEDERAL REGISTER Notice and Section 2.714, and must be filed with the Secretary of the Commission, U. S. Atomic Energy Commission, Washington, D. C. 20545, Attention: Docketing and Service Section by

A copy of the petition and/or request for hearing should be sent to the Chief Hearing Counsel, Office of the General Counsel, Regulation, U. S. Atomic Energy Commission, Washington, D. C. 20545 and to Jack R. Newman, Esquire, Lowenstein, Newman, Reis & Axelrad, 1025 Connecticut Avenue, N. W., Washington, D. C. 20006, attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested.

Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board designated by the Chairman of the Atomic Safety and Licensing Board Panel.

Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the applications for amendments dated October 24, 1974, and October 30, 1974, which are available for public inspection at the Commission's Public Document Room, 1717 H Street, N. W., Washington, D. C., and at the Lily Lawrence Box Public Library, 212 N. W. First Avenue, Homestead, Florida. As they become available, the Commission's related Safety Evaluation, and the proposed license amendments and attachments will also be available at the above locations. A copy of the Safety Evaluation and the proposed amendments and attachments, when available, may be obtained upon request addressed to the U. S. Atomic Energy Commission, Washington, D. C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing - Regulation.

Dated at Bethesda, Maryland, this day of

FOR THE ATOMIC ENERGY COMMISSION

George Lear, Chief
Operating Reactors Branch #3
