*Correction to
 Amdt. 91 to
 DPR-31*

Docket Nos. 50-250
 and 50-251

Dr. Robert E. Uhrig, Vice President
 Advanced Systems and Technology
 Florida Power and Light Company
 Post Office Box 529100
 Miami, Florida 33152

Dear Dr. Uhrig:

By letter dated January 13, 1983, we issued Amendment Nos. 91 and 85 to Facility Operating License Nos. DPR-31 and DPR-41, for the Turkey Point Plant Unit Nos. 3 and 4, respectively.

As part of these amendments we included, as license conditions, a paragraph relating to the requirement of P.L. 97-425. These license conditions indicated that the Licensee would satisfy any applicable requirement of P.L. 97-425 within 30 days after the effective date of issuance of the amendments. This 30 day requirement has been changed to 90 days. In addition, the phrase "...or such other time..." has been changed to read "...or such later time...". Enclosed are revised pages 2 of these Amendments.

Please accept our apologies for any inconveniences this administrative error may have caused.

Sincerely,

~~ORIGINAL SIGNATURE~~

Daniel G. McDonald, Project Manager
 Operating Reactors Branch #1
 Division of Licensing

2. Accordingly, the license is amended by changes to the Technical Specifications as indicated in the attachment to this license amendment, and paragraph 3.B of Facility Operating License No. DPR-31 is hereby amended to read as follows:

(B) Technical Specifications

The Technical Specifications contained in Appendices A and B, as revised through Amendment No. 91, are hereby incorporated in the license. The licensee shall operate the facility in accordance with the Technical Specifications.

3. Within 90 days after the effective date of this amendment, or such later time as the Commission may specify, the licensee shall satisfy any applicable requirement of P.L. 97-425 related to pursuing an agreement with the Secretary of Energy for the disposal of high-level radioactive waste and spent nuclear fuel.
4. This license amendment is effective as of the date of its issuance.

2. Accordingly, the license is amended by changes to the Technical Specifications as indicated in the attachment to this license amendment, and paragraph 3.B of Facility Operating License No. DPR-41 is hereby amended to read as follows:

(B) Technical Specifications

The Technical Specifications contained in Appendices A and B, as revised through Amendment No. 85, are hereby incorporated in the license. The licensee shall operate the facility in accordance with the Technical Specifications.

3. Within 90 days after the effective date of this amendment, or such later time as the Commission may specify, the licensee shall satisfy any applicable requirement of P.L. 97-425 related to pursuing an agreement with the Secretary of Energy for the disposal of high-level radioactive waste and spent nuclear fuel.
4. This license amendment is effective as of the date of its issuance.
