Gentlemen:

On March 24, 1982, Amendment Nos. 81 and 75 to Facility Licenses DPR-31 and DPR-41 for Turkey Point Unit Nos. 3 and 4, respectively, were issued by the Division of Licensing (DL). The issuance of these amendments was as a result of your application dated December 18, 1981, regarding steam generator inservice inspection requirements. In accordance with our letter dated January 12, 1982, your Company paid a total of \$4,400 for this application on January 20, 1982, pursuant to 10 CFR 170.22.

Based on information provided by the DL staff as a result of their final review of your application, it has now been determined that fees are not applicable for it. This final position is not because the application was requested by a July 1, 1981 letter, but rather because we have found that it was a resubmittal of your pending application dated September 27, 1974, as supplemented on December 20, 1976. When applications filed prior to the effective date of 10 CFR 170.22 (March 23, 1978) are supplemented or resubmitted without changing the scope of the original request, the supplemental or new applications filed on or after March 23, 1978, are not subject to fees. On this basis, a refund is appropriate. Therefore, we have concurrently authorized the Office of the Controller to refund a total of \$4,400 to your Company. Refunds are generally processed in a two-week period.

We regret any inconvenience that this fee issue might have caused your Company.

Sincerely,

Original Signed by  
Wm. O. Miller
