On March 6, 1987, the Commission issued Amendment No. 123 to Facility Operating License No. DPR-31 and Amendment No. 116 to Facility Operating License No. DPR-41 for the Turkey Point Plant, Unit Nos. 3 and 4, respectively. The amendment revised the immediate notification requirements and the Licensee Event Reporting System, as well as revising the Off-Site Organization for Facility Management and Technical Support and the Plant Organization Chart to reflect the current structure and position titles. The amendments also corrected areas in the Technical Specifications which contained conflicting submittal directions to be in accordance with the final rule on "Communications, Procedure Amendments, 10 CFR Part 50."

Due to an administrative error, page B4.2-13, which was issued with the amendments, should not have been included in the Technical Specification changes. Page B4.2-13 had previously been deleted in Amendment Nos. 119 and 113, issued on October 27, 1986. Please remove this page from your Technical Specifications.

Please accept our apologies for this error.

Sincerely,

/s/

Daniel G. McDonald, Project Manager
