Diane -

Thanks for the info. I think she was using the Salary and Expense appropriation, which **does not** include the IG appropriation.

Before you issue the final rule, you should also check with DPBA on the latest number, which I believe is \$487.325M (,or \$487.3M)and include the FY2001 rescission. The fee amount should not change since the rescission was taken from non-fee based money.

Jesse>>> Diane Dandois 03/23/01 12:13PM >>>  
Bob Janiski, PA, fielded a call from Jenny and patched her through to me. He itch is with the number in the press release issued yesterday where we say we have to collect \$453.3.

She could not arrive at that number and wanted to know what our starting number for the equation was: I told her \$487.4. Less 21.6 for NWF, lesss 3.2 from GF x 98% equals \$453.3.

She had been using \$481.9. I don't know where she got that number.

Glenda:

Excuse me for leaving messages for you earlier today, but we had an industry reporter, whom we work with all the time, on deadline regarding our award-winning news release on fees. Not to worry, Diane did a nice job with the reporter, we answered all of her questions and she made her deadline.  
Regards.
