ORDER AMENDING CONSTRUCTION PERMITS

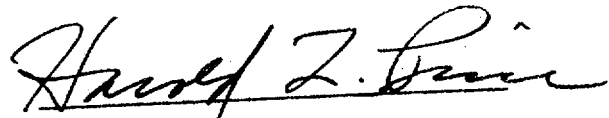

Pursuant to the "Initial Decision" of the Atomic Safety and Licensing Board, dated April 26, 1967, Florida Power & Light Company was issued Provisional Construction Permits Nos. CPPR-27 and CPPR-28 for the construction of two pressurized water nuclear reactors, designated respectively as Turkey Point Units 3 and 4, to be located at Florida Power & Light Company's Turkey Point site, about twenty-five miles south of Miami, in Dade County, Florida. The permits each contained a condition that certain data be developed, be filed with the Commission, and be made available for public hearing review and evaluation. A hearing was convened by the Atomic Safety and Licensing Board on this matter on October 22 and 23, 1968 pursuant to the Atomic Energy Commission's Order of Remand to the Atomic Safety and Licensing Board dated August 4, 1967. The "Supplemental Initial Decision" of the Atomic Safety and Licensing Board issued February 27, 1969 directed the issuance of amended provisional construction permits which eliminate the condition heretofore imposed with respect to the adequacy of the exclusion area.

Accordingly, based upon the evidence presented at the remand hearing, it is found that the condition heretofore imposed in Section 1 of Provisional Construction Permits Nos. CPPR-27 and CPPR-28 relating to the exclusion area for the site may be eliminated.

IT IS THEREFORE ORDERED that paragraph 1. of Construction Permits Nos. CPPR-27 and CPPR-28 are each amended to read as follows:

"1. Pursuant to Section 104b of the Atomic Energy Act of 1954, as amended (the Act), and Title 10, Chapter 1, Code of Federal Regulations, Part 50, "Licensing of Production and Utilization Facilities," and pursuant to the order of the Atomic Safety and Licensing Board, the Atomic Energy Commission (the Commission) hereby issues a provisional construction permit to Florida Power & Light Company (the Applicant) for a utilization facility (the facility), described in the application and amendments thereto filed in this matter by the Applicant and as more fully described in the evidence received at the public hearing upon that application. The facility, known as Turkey Point Nuclear Generating Unit No. 3, (4), will be located at Turkey Point, Dade County, Florida, about 25 miles south of Miami, Florida."
