The Commission has requested the Office of the Federal Register to publish the enclosed "Notice of Proposed Issuance of Amendments to Facility Operating Licenses" for the Turkey Point Nuclear Generating Unit Nos. 3 and 4 in response to your request dated Nay 8, 1978, supplemented on July 10, 1978, regarding a proposed Technical Specification change in the steam generator tube plugging limit. In addition, your June 19, 1978 notification of the Unit 4, Cycle 5 reload is included in this prenotice because it will include a reevaluation of the ECCS using the corrected ECCS model required by our order dated June 7, 1978.

The amendments would revise the Technical Specifications relating to the transient and accident analysis as affected by an increase in steam generator tube plugging levels from the current 19% to 25%.

Sincerely,

Original signed by

A. Schwencer, Chief

UNITED STATES NUCLEAR REGULATORY COMMISSION DOCKET NOS. 50-250 AND 50-251

FLORIDA POWER & LIGHT COMPANY

NOTICE OF PROPOSED ISSUANCE OF AMENDMENTS TO FACILITY OPERATING LICENSES

The U. S. Nuclear Regulatory Commission (the Commission) is considering issuance of amendments to Facility Operating Licenses Nos. DPR-31 and DPR-41 issued to Florida Power and Light Company (the licensee), for operation of the Turkey Point Station Unit Nos. 3 and 4, located in Dade County, Florida.

In accordance with the licensee's application for amendments dated May 8, 1978, supplemented on July 10, 1978, the amendments would revise the provisions in the Technical Specifications for Units 3 and 4 relating to the transient and accident analysis to account for the increase in steam generator tube plugging levels from the current 19% to 25%. Additionally, the licensee's July 19, 1977 notification of the Unit 4, Cycle 5 reload involves a reevaluation of the ECCS using a corrected approved ECCS model.

Prior to issuance of the proposed license amendments, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

By September 8, 1978 , the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendments to the subject facility operating licenses. Petitions for leave to intervene must be filed in accordance with the provisions of this Federal Register and section 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth with particularity the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the specific aspect or aspects of the subject matter of the proceeding as to which petitioner wishes to intervene. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and Section 2.714, and must be filed with the Secretary of the Commission, U. S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U. S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to Mr. Robert Lowenstein, Esquire, Lowenstein, Newman, Reis and Axelrad, 1025 Connecticut Avenue, NW., Suite 1214, Washington, D.C. 20036, the attorney for the licensee.

Not later than fifteen (15) days prior to the holding of the special prehearing conference pursuant to 10 CFR s2.751a, or where no special prehearing conference is held, fifteen (15) days prior to the holding of the first prehearing conference, the petitioner shall file a supplement to his petition to intervene which must include a list of the contentions which petitioner seeks to have litigated in the matter, and the bases for each contention set forth with reasonable specificity.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the application for amendment dated May 8, 1978, supplemented on July 10, 1978 and the June 19, 1978 reload submittal which are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Environmental and Urban Affairs Library, Florida International University, Miami, Florida 33199.

Dated at Bethesda, Maryland, this 4th day of August 1978.

FOR THE NUCLEAR REGULATORY COMMISSION

A. Schwencer, Chief Operating Reactors Branch #1 Division of Operating Reactors
