Describe Follow-up: (Telephone, Internet, Chamber of Commerce, Other) Infoseek search for "Cromby Generating Station" found several references to Peco Energy's Cromby Generating Station in Phoenixville, PA. I telephoned a representative of the generating station who reported that both the gauges and the Custodis-Cottrell designed electrostatic precipitators are still there.  Infoseek Search on "Custodis Cottrell" produced three matches, all of which referred to the engineering firm that designed and built the electrostatic precipitators on which the gauges are located.		
Describe Communication with Registration Vendor:		
Vendor Follow-up Action:		
Final Action Taken:		
Cause of Bad Address/Lesson Learned: In a number of records including this one, the gauge is assigned to the contractor building the equipment on which the gauge is installed. When letters are mailed years later, the contractor is gone, so the mail is returned as improperly addressed. The lesson to be learned is that the current system of issuing licenses does not reliably identify the general licensee. In addition, the current system has no way of dealing with address changes due to Post Office redesignation of addresses.
