SUBJECT: DRESDEN NUCLEAR POWER STATION, UNITS 2 AND 3 - DRAFT SAFETY
EVALUATION FOR PROPOSED EXTENDED POWER UPRATE LICENSE
AMENDMENTS (TAC NOS. MB0844 AND MB0845)

Dear Mr. Kingsley:

We have reviewed your letter dated November 16, 2001, which provides your comments on the draft safety evaluation (SE) we provided to you by our letter dated October 20, 2001. The draft SE is for amendments allowing an increase in the licensed power level from 2527 megawatts thermal (MWt) to 2957 MWt at Dresden Nuclear Power Station, Units 2 and 3 (DNPS), as requested by your application dated December 27, 2000. The amendments would approve changes to the operating licenses and the technical specifications to implement uprated power operation.

The enclosed draft SE for DNPS has been revised since our October 20, 2001, letter to you. These items are being withheld from public disclosure at this time because they may contain proprietary information. We are providing you this SE for the purpose of identifying any proprietary information pursuant to 10 CFR 2.790. Please provide any comments that you may have on the enclosed draft SE with regard to factual accuracy or inclusion of proprietary information by December 12, 2001. Should a situation occur which prevents you from meeting the date, please contact Lawrence W. Rossbach of my staff at (301) 415-2863.

Sincerely,

/RA/
