The Commission has requested the Office of the Federal Register to publish the enclosed "Notice of Proposed Issuance of Amendment of Facility Operating License" NPF-4 and NPF-7 for the North Anna Power Station, Units No. 1 and No. 2 (NA-1&2) respectively.

This notice relates to your license amendment application dated July 13, 1982 (Serial No. 331) which would add license conditions to Facility Operating Licenses NPR-4 and NPF-7 to allow the receipt and storage of 500 spent fuel assemblies from the Surry Power Station, Units No. 1 and No. 2.

Sincerely,

Robert A. Clark, Chief
Operating Reactors Branch#3
Division of Licensing

UNITED STATES NUCLEAR REGULATORY COMMISSION
DOCKET NOS. 50-338 and 50-339
NORTH ANNA POWER STATION, UNITS NO. 1 and NO.2
NOTICE OF PROPOSED ISSUANCE OF AMENDMENTS TO
FACILITY OPERATING LICENSES

The U. S. Nuclear Regulatory Commission (the Commission) is considering the issuance of an amendment to Facility Operating Licenses No. NPF-4 and No. NPF-7, issued to Virginia Electric and Power Company (the licensee), for operation of the North Anna Power Station, Units No. 1 and No. 2, located in Louisa County, Virginia.

In accordance with the licensee's application for amendment dated July 13, 1982 the amendment would revise Facility Operating Licenses No. NPF-4 and No. NPF-7 to permit the receipt and storage of 500 spent fuel assemblies from the Surry Power Station, Units No. 1 and No. 2.

Prior to issuance of the proposed license amendments, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

By October 22, 1982, the licensee may file a request for a hearing with respect to issuance of the amendments to the subject facility operating licenses and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written petition for leave to intervene. Requests for a hearing and petitions for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice for Domestic Licensing Proceedings" in 10 CFR Part 2. If a request for a hearing or petition for leave to intervene is filed by the above date, the Commission or an Atomic Safety and Licensing Board designated by the Commission or by the Chairman of the Atomic Safety and

Licensing Board Panel will rule on the request and/or petition and the Secretary

-2-

or the designated Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order.

As required by 10 CFR §2.714, a petition for leave to intervene shall set forth with particularity the interest of the petitioner in the proceeding and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) the nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend the petition without requesting leave of the Board up to fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, but such an amended petition must satisfy the specificity requirements described above.

Not later than fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, a petitioner shall file a supplement to the petition to intervene which must include a list of the contentions which are sought to be litigated in the matter and the bases for each contention set forth with reasonable specificity. Contentions shall be limited to matters within the scope of the amendment under consideration. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

-3-

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

A request for a hearing or a petition for leave to intervene shall be filed with the Secretary of the Commission, United States Nuclear Regulatory Commission, Washington, D. C. 20555, Attention: Docketing and Service Branch, or may be delivered to the Commission's Public Document Room, 1717 H Street, N. W., Washington, D. C. by the above date. Where petitions are filed during the last ten (10) days of the notice period, it is requested that the petitioner or representative for the petitioner promptly so inform the Commission by a toll-free telephone call to Western Union at (800) 325-6000 (In Missouri (800) 342-6700). The Western Union operator should be given Datagram Identification Number 3737 and the following message addressed to Robert A. Clark: (petitioner's name and telephone number); (date petition was mailed); (Plant name); and (publication date and page number of this FEDERAL REGISTER Notice). A copy of the petition should also be sent to the Executive Legal Director, U. S. Nuclear Regulatory Commission Washington, D. C. 20555, and to Michael W. Maupin, Esq., Hunton, Williams, Gay and Gibson, P. O. Box 1535, Richmond, Virginia 23212, attorney for the licensee.

-4-

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for hearing will not be entertained absent a determination by the Commission, the presiding officer or the Atomic Safety and Licensing Board designated to rule on the petition and/or request, that the petitioner has made a substantial showing of good cause for the granting of a late petition and/or request. That determination will be based upon a balancing of the factors specified in 10 CFR §2.714(a)(1)(i)-(v) and §2.714(d).

For further details with respect to this action, see the application for amendment dated July 13, 1982, which is available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D. C. 20555 and at the Board of Supervisors Office, Louisa County Courthouse, Louisa, Virginia 23093 and at the Alderman Library, Manuscripts Department, University of Virginia, Charlottesville, Virginia 22902.

Dated at Bethesda, Maryland this 16th day of September, 1982.

FOR THE NUCLEAR REGULATORY COMMISSION

Robert A. Clark, Chief
Operating Reactors Branch #3
Division of Licensing
