SUBJECT: CORRECTION TO AMENDMENT NO. 94 FOR NORTH ANNA, UNIT NO. 1
(TAC NO. 64722)

On May 13, 1987, the Commission issued Amendment No. 94 to Facility Operating License No. NPF-4 for the North Anna Power Station, Unit No. 1 (NA-1). The amendment added a license condition to permit the use of two fuel assemblies containing advanced zirconium base alloy for NA-1.

Due to an administrative error, the new license condition was numbered incorrectly. The added license condition should have been numbered 2.D.3.(d), rather than 2.D.3. Enclosed is the corrected page.

Please accept our apologies for any inconvenience this error may have caused you.

Sincerely,

Leon B. Engle, Project Manager
Project Directorate II-2
Division of Reactor Projects-I/II

2. Accordingly, Paragraph 2.D.3.(d) is hereby added to Facility Operating License No. NPF-4 to read:

2.D.3.(d) VEPCO may use two (2) fuel assemblies containing fuel rods clad with an advanced zirconium base alloy cladding material as described in VEPCO's letter dated February 20, 1987.

3. This license amendment is effective as of the date of its issuance.
