TRAINING: No special training requirements have been identified for any documents issued with this change notice.

REMARKS: MC 2690 (Inspection Program For Dry Storage of Spent Reactor Fuel at Independent Spent Fuel Storage Installations)
MC 2690, Appendix A (Inspection Program For an ISFSI Located at a Reactor Site)
MC 2690, Appendix B (Inspection Program For an ISFSI Located Away From Any Reactor Site)

The above documents have been revised to delete obsolete references to SALP and MIP, and to allow use of NRC Form 591 and Inspector Notes format for documenting non-escalated enforcement and inspection findings. Also, references to new procedures IP 60856 and IP 60857 were added.

MC 2882 (Transfer of NRC License Files to Agreement State(s)) has been revised for clarity and the two new sections have been added to specify the responsibilities of the Regional Allegations Staff and the Sealed Source and Device Evaluations Staff.

DISTRIBUTION: Standard
