Norcross, GA 30092

SUBJECT: NAC-UMS AMENDMENT 2 DELAY IN FORWARDING FINAL
CERTIFICATE OF COMPLIANCE

Dear Mr. Thompson:

The purpose of this letter is to notify you of a delay in forwarding the final Certificate of Compliance (CoC) and Safety Evaluation Report (SER) for Amendment 2 to CoC No. 1015. The Federal Register (66 FR 52486, 10/16/01), stated that the effective date of this certificate would be December 31, 2001.

However, the U. S. Nuclear Regulatory Commission (NRC) is reviewing many NRC-generated documents for sensitive information before final publication, even when previous versions of the documents have already been made public. Accordingly, the NAC-UMS CoC and SER are being reviewed as part of this effort. These reviews were not included in the previously scheduled December 31, 2001, effective date. Therefore, NRC has elected to delay final forwarding of the revised documents until the CoC and SER have been reviewed for sensitive information. At this time I do not have a revised completion date. The staff will make every effort to expedite their review.

If you have any comments or questions on this matter please contact me at (301) 415-3711.

Sincerely,
/S/ /RA/
