Request for Review of BAW-10186P Revision 1, Supplement 1, Mark-BW Extended Burnup

Ref.: 1. Letter, J. F. Mallay (FRA-ANP) to Document Control Desk (NRC), "Request for Review of BAW-10186P Revision 1, Supplement 1, Mark-BW Extended Burnup," NRC:01:048, November 19, 2001.

A letter was sent to the NRC requesting the NRC's review and approval of topical report BAW-10186P Revision 1, Supplement 1 (see Reference 1). Framatome ANP discovered that the two CDs enclosed with that letter were not formatted properly and may not be usable by the NRC. Therefore, two new CDs are enclosed with this letter. We request that the previous CDs be destroyed.

The affidavit provided with the original submittal of this topical report satisfies the requirements of 10 CFR 2.790(b) to support the withholding of the proprietary version of the report from public disclosure.

Very truly yours,

A handwritten signature in cursive script that reads 'James F. Mallay'.
