Gentlemen:

The Commission has requested the Office of the Federal Register to publish the enclosed "Notice of Proposed Issuance of Amendment to Facility Operating License" for St. Lucie Plant, Unit No. 1. This licensing action would involve a resolution of the operational problems related to CEA Guide Tube Wear prior to return to power operation following refueling for Cycle 2, in accordance with your submittals dated March 22 and 31, 1978.

Sincerely,

*[Signature]*

Robert W. Reid, Chief  
 Operating Reactors Branch #4  
 Division of Operating Reactors

UNITED STATES NUCLEAR REGULATORY COMMISSIONDOCKET NO. 50-335FLORIDA POWER & LIGHT COMPANYNOTICE OF PROPOSED ISSUANCE OF AMENDMENT  
TO FACILITY OPERATING LICENSE

The Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. DPR-67 issued to Florida Power & Light Company (the licensee), for operation of the St. Lucie Plant, Unit No. 1 (the facility), located in St. Lucie County, Florida.

The amendment would authorize operation of the facility following refueling for Cycle 2 operation and upon resolution of the Control Element Assembly guide tube wear problem, in accordance with the licensee's application for amendment dated March 22, 1978, and submittal dated March 31, 1978.

Prior to issuance of the proposed license amendment, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

By May 18, 1978, the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendment to the subject facility operating license. Petitions for leave to intervene must be

7590-01

filed under oath or affirmation in accordance with the provisions of Section 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and Section 2.714, and must be filed with the Secretary of the Commission, U. S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U. S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to Robert Lowenstein, Esquire, Lowenstein, Newman, Reis & Axelrad, 1025 Connecticut Avenue, N.W., Washington, D.C. 20036, the attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic

Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the application for amendment dated March 22, 1978, and the licensee's submittal dated March 31, 1978, which are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Indian River Junior College Library, 3209 Virginia Avenue, Ft. Pierce, Florida.

Dated at Bethesda, Maryland, this 14th day of April 1978.

FOR THE NUCLEAR REGULATORY COMMISSION

Robert W. Reid, Chief  
Operating Reactors Branch #4  
Division of Operating Reactors
