SUBJECT: BYRON NUCLEAR POWER STATION - CHANGES TO PREVIOUSLY
ANNOUNCED NRC ENGINEERING INSPECTIONS

Dear Mr. Kingsley:

On May 31, 2001, NRC issued an annual assessment letter covering the period from April 2000 to March 2001. This letter contained a preliminary schedule of NRC engineering inspections through April 2002. Due to emerging issues, and circumstances unforeseen when the schedule was developed, we have decided to delay the upcoming Byron Permanent Plant Modifications and Changes, Tests and Experiments inspections. The original dates of these inspections were January 14 -18, 2002. The new dates for the inspections are April 15 - 19, 2002.

This change has been discussed with your staff. If you have questions regarding the NRC actions discussed above, please contact Mr. John Jacobson at 630-829-9736 or Mr. Ronald Gardner at 630-829-9751.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/NRC/ADAMS/index.html> (the Public Electronic Reading Room).

Sincerely,

/RA/
