**UNOPPOSED MOTION OF
CAROLINA POWER & LIGHT COMPANY
FOR LEAVE TO INTERVENE**

Carolina Power & Light Company ("CP&L") respectfully moves, pursuant to 28 U.S.C. § 2348, Rule 15(d) of the Federal Rules of Appellate Procedure, and Circuit Rule 15(b), for leave to intervene in the above-entitled action. In support of its motion, CP&L states the following:

Petitioner has commenced this action to seek review of a December 21, 2000, Notice of Issuance of Amendment to Facility Operating License and Final Determination of No Significant Hazards Consideration issued by the United States Nuclear Regulatory Commission ("NRC"). This NRC action issued Amendment No. 103 to Facility Operating License No. NPF-63 allowing CP&L to increase the spent fuel storage capacity at its Shearon Harris Nuclear Power Plant. CP&L is an original party in the NRC proceeding below.

CP&L is the owner and holder of Facility Operating License No. NPF-63, issued by the NRC for the Shearon Harris Nuclear Power Plant, which is located in Wake and

Chatham Counties, North Carolina. CP&L applied for a license amendment to support a modification to increase the Harris spent fuel storage capacity by adding rack modules to spent fuel pools 'C' and 'D' and placing these pools in service. The proceeding below pertains to this application and affects CP&L's ability to continue to generate electricity from its nuclear power plant fleet. Thus, CP&L has a substantial, direct and tangible interest in the ultimate resolution of this proceeding. It is submitted that CP&L is, therefore, entitled to intervene in this proceeding.

Counsel for CP&L has been authorized by counsel for Petitioner and counsel for Respondents to state that neither Petitioner nor Respondents oppose the granting of this motion.

Respectfully submitted,

David J. Cynamon
