Covert, MI 49043-9530

SUBJECT: PALISADES NUCLEAR PLANT - CHANGES TO PREVIOUSLY ANNOUNCED
NRC ENGINEERING INSPECTION

Dear Mr. Cooper :

On May 31, 2001, NRC issued an annual assessment letter covering the period from April 2000 to March 2001. This letter contained a preliminary schedule of NRC engineering inspections through April 2002. Due to emerging issues, and circumstances unforeseen when the schedule was developed, we have decided to delay the upcoming Palisades Safety System Design and Performance Capability inspection. The original dates of the inspection were April 29 - May 17, 2002. The new dates for the inspection are September 9 - 27, 2002.

This change has been discussed with your staff. If you have questions regarding the NRC actions discussed above, please contact Mr. John Jacobson at 630-829-9736 or Mr. Ronald Gardner at 630-829-9751.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/NRC/ADAMS/index.html> (the Public Electronic Reading Room).

Sincerely,

/RA/

John M. Jacobson
Chief, Mechanical Engineering Branch
Division of Reactor Safety
