License Amendment Request 01-09

Revision to the DCPP Physical Security Program to Incorporate the Diablo Canyon ISFSI and Associated Request for Exemption to Four 10 CFR 73.55 Requirements

Dear Commissioners and Staff:

In accordance with 10 CFR 50.90 and 10 CFR 50.4(b)(4)(iv), enclosed is an amendment request to Facility Operating License Nos. DPR-80 and DPR-82. This license amendment request (LAR) proposes to revise the Diablo Canyon Power Plant (DCPP) Physical Security Plan, the Safeguards Contingency Plan, and the Security Training and Qualification Plan to incorporate the security provisions applicable to the Diablo Canyon Independent Spent Fuel Storage Installation (ISFSI). As part of the LAR, exemptions from four 10 CFR 73.55 requirements are requested in accordance with 10 CFR 50.12. These changes will go into effect before movement of spent fuel out of the main DCPP Protected Area.

The proposed change to the Physical Security Plan primarily consists of the addition of an Appendix J that separately describes the security requirements for the Diablo Canyon ISFSI. The proposed changes to the Safeguards Contingency Plan and the Security Training and Qualification Plan are relatively minor and reflect the integrated addition of event responses and personnel tasks specific to the Diablo Canyon ISFSI. These proposed changes do not change any of the plant security requirements, and do not decrease the effectiveness of plant security. These changes will be incorporated into the physical security, safeguards contingency and security training and qualification plans following NRC approval.

Enclosure 1 describes and contains the proposed changes to the Physical Security Plan, the Safeguards Contingency Plan, and the Security Training and Qualification Plan. Enclosure 1 contains security safeguards information, and should be handled in accordance with 10 CFR 73.21.

Enclosure 2 contains exemption requests for four 10 CFR 73.55 requirements. In accordance with 10 CFR 2.790(d), PG&E requests that enclosure 2 be withheld from public disclosure since it contains information related to DCPD security.

These proposed changes are submitted to the Document Control Desk, and a copy to the Region IV Office.

Should you require further information or clarification, please contact Ron Todaro, Manager, Security Services, at (805) 545-4309.

Sincerely,

Lawrence F. Womack  
Vice President, Nuclear Services
