Braidwood inspection report 01-11, references two Task Interface Agreements (TIAs) for Millstone and Susquehanna regarding instrument uncertainties in surveillance testing acceptance criteria (non-public ML013460185 and ML013460191).

Braidwood was issued a Notice of Violation based on the content in the two previous Task Interface Agreements (TIA) for Millstone and Susquehanna being also applicable to the Braidwood issue.

Because it is very important to communicate these positions so plants can avoid future Notices of Violation, I believe these documents should be made available to the industry.

Please release the non-public TIAs ML013460185 and ML013460191

Thank you.

Jim
