Dear Ms. Semerena:

We have reviewed the changes incorporated into the final Nebraska regulations, Title 180 of the Nebraska Administrative Code, as described in your letter dated August 28, 2001, which became effective on July 22, 2001. We have one editorial comment, as enclosed. We discussed our review of the regulations with Ms. Trudy Hill on November 7, 2001 and January 3, 2002.

As a result of the NRC review, we have determined that the Nebraska regulations, as adopted, meet the compatibility and health and safety categories established in the Office of State and Tribal Programs (STP) Procedure SA-200. Please note that we have limited our review to the changes outlined in your letter in regards to regulations required for compatibility and/or health and safety. The regulations were reviewed by comparison to the equivalent NRC regulations in 10 CFR Part 20.

The State Regulation Status (SRS) Data Sheet summarizes our knowledge of other Nebraska regulations. Please let us know if you note any inaccuracies or have any comments on the information contained in the SRS Data Sheet. This letter including the SRS Data Sheet is posted on the STP Web Site: <http://www.hsrp.ornl.gov/nrc/rulemaking.htm>.

If you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact me or Linda McLean at (817) 860-8116 or mim1@nrc.gov.

Sincerely,

/RA/

Frederick C. Combs, Deputy Director
Office of State and Tribal Programs

Editorial Comment

1. The term "License Termination Plan" is used in this rule; this term only applies to reactors. This term is improperly used. The term "Decommissioning Plan" should be used in its place.
