As per license condition 12.1, please be noticed that a Wyoming DEQ reportable spill occurred at the Smith Ranch Facility on January 4, 2002. The spill occurred in Wellfield Three from well 3-P-163 when a galvanized fitting on the wellhead corroded through. The spill was approximately 1,800 gallons of production fluid containing about 18 ppm U(subscript: 3)O (subscript: 8). A written report which details the corrective action will follow.

If you have any questions I can be reached at 307-358-3744, ext. 62.

John W. Cash
