SUSQUEHANNA STEAM ELECTRIC STATION
COMMITMENT CHANGE: NOV EA-01-187
PLA-5396

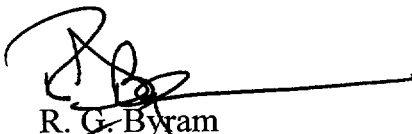

Docket Nos. 50-387
and 50-388

Reference: PLA-5383, R. G. Byram to USNRC, "Reply to a Notice of Violation (EA-01-187 from Inspection Report Nos. 50-387-01-06 and 50-388-01-06)," dated October 15, 2001.

Our letter dated October 15, 2001 [Mr. R. G. Byram to USNRC, Reply to a Notice of Violation], included a commitment to forward PPL's management plan for improving Emergency Preparedness by October 31, 2001. The purpose of this letter is to document that the schedule for this commitment has been changed to November 16, 2001, as a result of a conference call between Mr. Terry Harpster [PPL Manager, Nuclear Regulatory Affairs] and Mr. Richard Conte [NRC Region I] on November 1, 2001.

PPL Susquehanna LLC has recently undergone a major organizational change. As part of that change, a new position, General Manager-Plant Support, was created reporting directly to the Vice President, Nuclear Site Operations. This position will provide a better focus on critical support functions including Emergency Planning. Additionally, a new Supervisor, Nuclear Emergency Planning was hired. Extension of the commitment date is necessary in order to incorporate the input of these new managers.

Sincerely,

R. G. Byram
