Perry Nuclear Power Plant
Docket No. 50-440, CPPR-149
Disposition of Perry Nuclear Power Plant (PNPP) Unit 2 Construction Permit
and Site Stabilization Plan

Ladies and Gentlemen:

This letter documents a telephone conversation held between Mr. S. Singh Bajwa (NRC-NRR Project Director) and Ms. Mary O'Reilly (FirstEnergy Legal Counsel) on October 4, 2001.

The conversation re-iterated the desire of the PNPP Unit 2 owners to terminate the PNPP Unit 2 Construction Permit No. CPPR-149 as detailed in a letter dated December 29, 1994 (PY-CEI/NRR-1899L). The decision was and continues to be based on business and economic considerations. During the conversation, Mr. Bajwa indicated that the NRC would issue a letter confirming the Construction Permit termination and the acceptance of the 1994 Site Stabilization Plan which was described in the aforementioned letter.

If you have questions or require additional information, please contact Mr. Gregory A. Dunn, Manager - Regulatory Affairs, at (440) 280-5305.

Very truly yours,

cc: NRC Project Manager
