Memorandum

To: Agreement State Program Directors
From: Ad-Hoc Committee to Update Topical Report
Date: December 10, 2001
Subject: Update to the OAS Topical Discussion

At the OAS meeting in October, states agreed that it is time to create an update to the OAS Topical Discussion originally printed in 1994. As requested at the meeting, extra copies of the report are being distributed to all of the states, and are included with this memo.

The next page contains a list of topics that should be updated or added to the next edition. If there is a section that you or a member of your staff would like to help write, please contact Kathy, Aubrey or Ken. We certainly need several volunteers to help write sections. Also, if there is another issue that you would like to see included in the next Topical Discussion, please note that also. We will be expanding the Ad-Hoc Committee to include others interested in helping with this project.

Thank you for your support of this endeavor.

Sincerely,

The Ad-Hoc Committee to Update Topical Report:
