Subject: Docket No. 50-482: "Correction of Corrective Action Completion Date"

Gentlemen:

This letter revises an incorrect statement contained in the referenced letter; thereby, correcting the docket. Wolf Creek Nuclear Operating Corporation (WCNOC) personnel have identified that letter ET 00-0047 incorrectly documented the corrective action completion date of Self Assessment (SEL) 99-031, "Software Quality Assurance Review." The referenced letter stated:

"A self assessment (SEL 99-031) on software quality assurance (SQA) was completed on December 17, 1999."

This statement should have read:

"A self assessment (SEL 99-031) on software quality assurance (SQA) was completed on October 20, 2000."

This error in completion date documented in letter ET 00-0047 did not affect the performance of any equipment, and had no effect on the health and safety of the public. The concern was initially discussed with the NRC Senior Resident Inspector on September 18, 2001, and was later discussed with the Wolf Creek NRC NRR Project Manager during a telephone conference on September 19, 2001. As a result of that discussion it was determined that WCNOC would write a follow-up letter of clarification to correct the docket.
