# **DOCUMENT HISTORY**

REVISION	EFFECTIVE DATE	DESCRIPTION OF CHANGE	PREPARED BY: REVIEWED BY: APPROVED BY:
1	01/27/97	Revised titles, responsibilities and inventory list layout	N. Brown
		and instructions. Revisions to responsibilities to be more uniform.	
2	12/31/97	Correct inventories, provide clarification for responsibilities to enhance response, revise drill/exercise intervals to be consistent with the Emergency Plan.	N. Brown
3	11/17/98	Provides guidance as to what goes into the CAP System, corrections made to managers titles and guidance identifying that one major drill or exercise will be conducted on an annual basis.	S.R. Finicle
4	03/16/99	Correct spelling, clarification, deletion of 1 monitor at EOF and surveillance procedures at TSC and transition changes GPU to TMI. Added a new exhibit identifying the communication links.	N. Brown
5	08/18/99	Added Emergency Plan number per biennial review requirement and corrected drawing list for the TSC.	N. Brown
6	04/18/00	Change "Manager, Shift Engineering" to "Manager, System Engineering" and "Manager, Plant Training, TMI" to "Director, Training, TMI"	S.R. Finicle
7	10/26/00	Removed Procedure Index from TSC, Backup TSC Inventory revised per 1001G guidance. Removed large screen monitors at EOF.	N. Brown
8	05/18/01	Changed applicability on cover page. Revised Exhibit 4A. Some procedures have been added and one (1107-2) has been deleted. Deleted reference to FTS 2000. Name no longer exists for TMI.	S. R. Finicle
9	08/07/01	Exhibit 4, added supplies. Exhibit 4A, deleted reference to ATOG 1210-7.	S. R. Finicle
10	11/14/01	Revise reference to Section 6.0 (K). Changed procedure number from 1097 to LS-AA-125. Delete reference to GPU phone directory in Exhibits 2 and 2A. Added the word "/Coordinator" to the end of title, "Emergency Preparedness Manager".	S. R. Finicle

#### Maintaining Emergency Preparedness

10

#### 1.0 **PURPOSE**

This procedure delineates the requirements for maintaining an adequate level of emergency preparedness at TMI.

#### 2.0 APPLICABILITY/SCOPE

This procedure applies to all organizations supporting emergency preparedness at TMI.

#### 3.0 **DEFINITIONS**

- a. Medical Emergency Drill
  - Involves the participation of local/site medical support personnel and organizations, and will involve simulated cases of contaminated injured or ill personnel.
- b. Fire Emergency Drill
  - Fire Emergency Drills shall be as defined in Reference f.
- c. Repair and Damage Control Drill
  - A drill shall be conducted to test the Emergency Repair Team.
- d. Communications Links (listed in Exhibit 6) Exercise is performed in accordance with Reference g.
  - At least once per month the communications links to state and local government agencies within the 10 mile EPZ shall be exercised (operationally checked).
  - At least once annually (once per calendar year), the communications links between the nuclear facility, state and local emergency operations centers and field assessment teams shall be exercised (operationally checked).
  - At least once per month the communications links between the nuclear facility and the NRC shall be exercised (operationally checked).
- e. Biennial Radiation Emergency Exercise
  - A major drill which tests the TMI Emergency Plan shall be conducted biennially (once every two calendar years) to include a scenario appropriate to a site area or general emergency. The scenario should be varied from exercise to exercise such that all major elements of the plans and preparedness organizations are tested within a five-year period.
  - The conduct of the drill shall provide for the coordination with and participation of: off-site emergency response personnel, organizations and agencies; including those of state and county governments.

	TMI Emergency Plan Implementing Procedure	TEP-ADM-1300.01
,tle	······································	Revision No.
Maintaining Emerger	10	

- f. Radiological Monitoring Drill
  - The drill shall be a demonstration of TMI's ability to collect and analyze all appropriate sample media for both on-site and off-site locations.
- g. Radiological Controls
  - The drill will involve response to, and analysis of, simulated elevated airborne and liquid samples and direct radiation measurements.
- h. Hazardous Material Drill
  - The drill will involve response, monitoring and control of simulated accidental spills or releases of hazardous materials to the environment.
- i. Verification of Emergency Telephone Numbers
  - Verification and revision of emergency telephone numbers will be conducted quarterly in accordance with Reference i.
- j. Prompt Notification System Maintenance and Testing
  - The TMI Prompt Notification System shall be tested in accordance with the guidance of NUREG 0654.
    - i) Full cycle siren tests shall be performed by the risk counties in accordance with the county test schedule.
    - ii) A growl test shall be performed at least quarterly.
    - iii) Semi-annual and annual inspections shall be conducted in accordance with manufacturers recommendations.
  - Test and maintenance reports shall be sent to PEMA on a quarterly basis.
- k. Annual Drill/Exercise
  - Annually a major drill or exercise will be conducted in accordance with Reference a.

#### 4.0 **PROCEDURE**

- a. Emergency Preparedness Drills
  - Drills and Exercises will be conducted following the guidelines of Reference c.
  - Drill Scenarios will be prepared for each drill in accordance with Reference c and will be approved by the Emergency Preparedness Manager/Coordinator, TMI. A file of these scenarios will be maintained by the Emergency Preparedness Manager/Coordinator, TMI.
  - Drill Packets should be retained for at least one year with the Emergency Preparedness Department then forwarded to document controls (CARIRS) for permanent storage.

		Number
	TMI Emergency Plan Implementing Procedure	TEP-ADM-1300.01
ıtle	<u> </u>	Revision No.

b. Emergency Preparedness Training

**Maintaining Emergency Preparedness** 

- Training on the Emergency Plan and its implementation shall be scheduled for all personnel at TMI in accordance with Reference d.
- Documentation of formal training provided shall be maintained by the Training Department.
- c. Emergency Response Facilities Inventories
  - The responsible department head, or his/her designee, shall ensure that inventories are properly performed and documented for facilities under their control.
    - i) Inventories are required at the following frequency:
      - a. Quarterly
      - b. Following a drill or declared emergency which resulted in activation of the facility.

#### NOTE

An inventory completed following a drill or actual emergency may also satisfy the quarterly requirement for the quarter in which it was performed.

- ii) Facility activation inventories shall be completed by the end of the next working day following the day in which the closeout of the emergency or drill that activated the facility occurred.
- iii) Quarterly inventories should be scheduled such that they can be completed, and forwarded to Emergency Preparedness for review at least 10 days before the end of the guarter.

#### NOTE

This will ensure that the Emergency Preparedness personnel have sufficient time to review the inventories before the end of the quarter and take any action necessary to ensure that the program remains in compliance with the Emergency Plan requirements.

- Inventories shall be documented by filing out the appropriate inventory form (Exhibits 1 through 5).
- Completed documentation shall be sent to the Emergency Preparedness Department in accordance with the instructions on the inventory form.
