

February 4, 2002

MEMORANDUM TO: James W. Clifford, Chief, Section 2
Project Directorate 1
Division of Licensing Project Management
Office of Nuclear Reactor Regulation

FROM: Christopher Gratton, Sr. Project Manager, Section 2 /RA/
Project Directorate 1
Division of Licensing Project Management
Office of Nuclear Reactor Regulation

SUBJECT: LIMERICK GENERATING STATION (LGS), UNITS 1 AND 2, EMAIL
TRANSMISSION, ISSUES TO BE DISCUSSED IN AN UPCOMING
CONFERENCE CALL (TAC NOS. MB1018 and MB1019)

The attached information was e-mailed on January 23, 2002, to Mr. David Helker of Exelon Generation Company, LLC (the licensee). This information was transmitted to facilitate an upcoming conference call in order to clarify the licensee's submittal dated January 9, 2001. In the submittal, the licensee proposed alternatives to the requirements of Title 10 of the *Code of Federal Regulations*, Section 50.55a, concerning the second, 10-year inservice inspection programs. This memorandum and the attached questions do not convey or represent a Nuclear Regulatory Commission staff position regarding the licensee's request.

Docket Nos. 50-352 and 50-353

Attachment: Issues for Discussion in Upcoming Telephone Conference

CONTACT: Christopher Gratton, NRR

Issues for Discussion in Upcoming Telephone Conference
Limerick Generating Station
ISI Program - Proposed Alternatives

Please be prepared to discuss the following topics and questions regarding relief request RR-13 (all Tables):

1. Whether all piping and tubing are under low pressure during normal operation.
2. Are they (the components discussed in RR-13) all of small diameter tubing?
3. What are the consequences to safety, if any, should there be a leak?
4. Do you plan to perform any visual inspections in addition to the App. J test?
