Subject: Changes to Emergency Plan Implementing Procedures – January 28, 2002
Grand Gulf Nuclear Station
Docket No. 50-416
License No. NPF-29

GNRO-2002/00013

Ladies & Gentlemen:

Entergy Operations, Inc. submits in accordance with 10CFR50 Appendix E, Section V changes to the following Emergency Plan Implementing Procedure:

01-S-10-6 Rev. 15

This letter does not contain any commitments.

Yours truly,

A handwritten signature in black ink, appearing to read "CAB", with a long horizontal flourish extending to the right.

Charles A. Bottemiller,
Licensing Manager

Core Operating Limits Report	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	AS 12-1-2001
Fire Hazard Analysis	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	
Fire Protection Program	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	
Offsite Dose Calculations Manual	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
Process Control Program	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
NRC Safety Evaluation Reports ¹	<input type="checkbox"/>	<input checked="" type="checkbox"/>		
If "YES", perform an Exemption Review per Section IV <u>OR</u> perform a 50.59 Evaluation per Section V.				

<i>LBDs controlled under 72.48</i>	YES	NO	N/A	<i>CHANGE # and/or SECTIONS TO BE REVISED</i>
Cask UFSAR	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
Certificate of Compliance	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
If "YES", evaluate/process any changes in accordance with 72.48				

<i>LBDs controlled under other regulations</i>	YES	NO	N/A	<i>CHANGE # and/or SECTIONS TO BE REVISED</i>
Quality Assurance Program Manual ²	<input type="checkbox"/>	<input checked="" type="checkbox"/>		
Emergency Plan ³	<input type="checkbox"/>	<input checked="" type="checkbox"/>		
Security Plan ^{3, 3}	<input type="checkbox"/>	<input checked="" type="checkbox"/>		
Inservice Inspection Program ⁴	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
Inservice Testing Program ⁴	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
If "YES", evaluate/process any changes in accordance with the appropriate regulation.				

¹ If "YES," see Section 5.1.5.

² If "YES," notify the responsible department and ensure a 50.54 Evaluation is performed.

³ The Security Plan is classified as safeguards and can only be reviewed by personnel with the appropriate security clearance. The Preparer should notify the security department of potential changes to the Security Plan.

⁴ If "YES", process the change in accordance with the 10CFR50.55a control program.

Title: Emergency Response Organization	No.: 01-S-10-6	Revision: 15	Safety Evaluation
--	----------------	--------------	-------------------

- B. Does the proposed activity involve a test or experiment not described in the FSAR? ☐ Yes If "yes," perform an Exemption Review per Section IV OR ☒ No perform a 50.59 Evaluation per Section V.

C. Basis

(Provide a basis for the "no" items checked in Sections II.A and II.B, above. Adequate basis must be provided within the Screening such that a third-party reviewer can reach the same conclusions. Simply stating that the change does not affect TS or the FSAR is not an acceptable basis. If a 50.59 Evaluation is required, this section may be N/A'd.)

Performed search of the on-line UFSAR, Tech Specs and Emergency plan for the key words "Administrative Director", "Emergency Response", and "augmentation". Reviewed all hits returned. Performed a manual comparison of Emergency Plan Table 5-1 to 01-S-10-6 Attachment II. Changes in 01-S-10-6 Revision 15 are not addressed in UFSAR or Tech Specs. Changes in 01-S-10-6 Rev 15 are consistent with the Emergency Plan Table 5-1 augmentation requirements and Administrative Director responsibilities. Also searched online SERs and SER amendments for keywords above. It was noted that many references in the SERs refer to different augmentation times, however Emergency Plan Table 5-1 has previously been approved by the NRC.

- D. Is the validity of this Review dependent on any other change? (See Section 5.2.2.4 of the EOI 10CFR50.59 Program Review Guidelines) ☐ Yes ☒ No

If "Yes," list the required changes.

E. References

[Discuss the methodology for performing the LBD search. State the location of relevant licensing document information and explain the scope of the review such as electronic search criteria used (e.g., key words) or the general extent of manual searches per Section 5.2.2.4 of LI-101.]

III. ENVIRONMENTAL SCREENING

If any of the following questions is answered "yes," an Environmental Review must be performed in accordance with NMM Procedure EV-115, "Environmental Evaluations."

Will the proposed Change being evaluated:

Yes No

- ☐ ☒ Involve a land disturbance of previously disturbed land areas in excess of one acre (i.e., grading activities, construction of buildings, excavations, reforestation, creation or removal of ponds)?
 - ☐ ☒ Involve a land disturbance of undisturbed land areas (i.e., grading activities, construction, excavations, reforestation, creating, or removing ponds)?
 - ☐ ☒ Involve dredging activities in a lake, river, pond, or stream?
 - ☐ ☒ Increase the amount of thermal heat being discharged to the river or lake?
 - ☐ ☒ Increase the concentration or quantity of chemicals being discharged to the river, lake, or air?
 - ☐ ☒ Discharge any chemicals new or different from that previously discharged?
 - ☐ ☒ Change the design or operation of the intake or discharge structures?
 - ☐ ☒ Modify the design or operation of the cooling tower that will change water or air flow characteristics?
 - ☐ ☒ Modify the design or operation of the plant that will change the path of an existing water discharge or that will result in a new water discharge?
 - ☐ ☒ Modify existing stationary fuel burning equipment (i.e., diesel fuel oil, butane, gasoline, propane, and kerosene)?
 - ☐ ☒ Involve the installation of stationary fuel burning equipment or use of portable fuel burning equipment (i.e., diesel fuel oil, butane, gasoline, propane, and kerosene)?
 - ☐ ☒ Involve the installation or use of equipment that will result in an air emission discharge?
 - ☐ ☒ Involve the installation or modification of a stationary or mobile tank?
 - ☐ ☒ Involve the use or storage of oils or chemicals?
 - ☐ ☒ Involve burial or placement of any solid wastes in the site area that may effect runoff, surface water, or groundwater?

1.0 PURPOSE AND DISCUSSION

1.1 Purpose

- 1.1.1 To describe the responsibilities of various site personnel with respect to the Emergency Response Organization. The procedure also describes minimum staffing requirements for the different emergency classifications, site specific positions used to meet staffing requirements, required augmentation times for response personnel, requirements for assignment to the Emergency Response Organization, and expectations for response personnel.

1.2 Discussion

- 1.2.1 The Emergency Response Organization must be capable of responding within a short period after the declaration of an emergency and be capable of performing the assigned emergency function to mitigate consequences of the emergency.

2.0 RESPONSIBILITIES

- 2.1 Site Vice President, through the Director, Nuclear Safety Assurance - Is responsible for:

- 2.1.1 Establishing management direction and control for the Emergency Preparedness Program to assure that preparedness is maintained and that any required corrective actions are implemented.
- 2.1.2 Designating personnel to fill Emergency Response Organization positions.

- 2.2 Manager, Emergency Preparedness - Is responsible for:

- 2.2.1 Overall management of the Emergency Preparedness Program.
- 2.2.2 Maintenance of this procedure.
- 2.2.3 Ensuring that an up-to-date on-call schedule is maintained.
- 2.2.4 Identifying personnel to fill Emergency Response Organization positions. These positions are listed in Attachment II.
- 2.2.5 Ensuring that personnel assigned:
 - a. Are qualified in accordance with Reference 3.5 and remain qualified while assigned.
 - b. Reside in a location that enables them to respond to their Emergency Response Facility in the time required in accordance with Attachment II.

- 2.3 Manager, Training and Development - Is responsible for:

- 2.3.1 Providing emergency plan training for emergency response personnel commensurate with their emergency response position.

Title: Emergency Response Organization	No.: 01-S-10-6	Revision: 15	Page: 3
--	----------------	--------------	---------

2.4 Facility Process Owners - Are responsible for:

2.4.1 Making recommendations for their assigned facilities concerning:

- a. Staffing
- b. Operation
- c. Readiness

2.5 Corporate Security - Is responsible for:

2.5.1 Notifying the Manager, Emergency Preparedness (GGNS) upon loss of access for any Entergy employee or Security Personnel.

2.6 Radiation Protection - Is responsible for:

2.6.1 Notifying the Manager, Emergency Preparedness (GGNS) upon any Radworker Restriction for any Entergy employee or Security personnel.

2.7 Discipline Training Coordinators - Are responsible for:

- 2.7.1 Providing names of personnel who fill Emergency Plan On-Shift positions to the Emergency Preparedness Department.
- 2.7.2 Ensuring training and qualification of individuals assigned to Emergency Plan On-Shift position remain qualified.

2.8 GGNS Management (Managers and Supervisors) - Is responsible for supporting the Emergency Response Organization through the following means:

- 2.8.1 Ensuring that each ERO member under their supervision remains qualified to respond to an emergency.
- 2.8.2 Providing clear expectations for emergency response performance and hold their employees accountable. This applies to both ERO and non-ERO members.
- 2.8.3 Enforcing accountability for Emergency Preparedness Violations/Weaknesses at all levels of the organization as appropriate.
- 2.8.4 Discussing Emergency Preparedness issues at morning meetings or Plan of the Day meetings to ensure appropriate priorities are given to those issues.

Title: Emergency Response Organization	No.: 01-S-10-6	Revision: 15	Page: 5
--	----------------	--------------	---------

6.0 DETAILS

6.1 Augmentation Requirements

- 6.1.1 The normal shift organization shall be augmented by additional personnel within a short period of time after the declaration of an emergency as described by the GGNS Emergency Plan. Attachment II (ERO Assignment Responsibilities) provides detailed information on Emergency Response Organization responsibilities to implement the GGNS Emergency Plan.
- 6.1.2 The operational and augmentation times for the TSC, EOF, OSC, ENMC and EIC have been established in the appropriate emergency plan procedures. Emergency Preparedness should determine the cause if the times established in the procedures are not met. If the cause is isolated and beyond the control of the GGNS, i.e., weather, traffic, etc., then the inability to meet the times in that instance is understood and GGNS should continue to strive to meet the times. However, if the inability to meet the times is systemic or for reasons over which GGNS has control, i.e. residence of responders, delay in notification of responders, delay in accessing facilities, delay of activities to setup a facility, etc., then GGNS should implement appropriate corrective actions to ensure the times can be met.

6.2 Assignment of Emergency Response Organization Personnel

- 6.2.1 The Director, Nuclear Safety Assurance through the Manager, Emergency Preparedness shall assign personnel to the ERO to provide the minimum coverage of the positions listed in Attachment II of this procedure. Permanent changes to the ERO must be made in accordance with Attachment IV of this procedure.
- 6.2.2 Manager, Emergency Preparedness should ensure that at least 1/2 of the personnel required, listed in Attachment II, are maintained in each ERO position. This ensures there are an adequate number of qualified ERO members in each position to allow a rotation schedule to be established in order to support a protracted event. If a position is staffed less than 50%, special measures are taken to support a rotation schedule.
- 6.2.3 The Emergency Preparedness staff must update the VIP-2000 data base when permanent changes are made.

6.3 Training and Qualification of Emergency Response Organization Personnel

- 6.3.1 Manager, Emergency Preparedness and Discipline, Training Coordinators must ensure that training and qualification of individuals assigned to the Emergency Response Organization (On-Call and On-Shift) remain current in accordance with Reference 3.5. If an assigned individual's training expires, the Manager, Emergency Preparedness must ensure that the individual is removed from the on-call duty roster.

Title: Emergency Response Organization	No.: 01-S-10-6	Revision: 15	Page: 6
--	----------------	--------------	---------

- 6.3.2 Corporate Security, Radiation Protection, Training, and Safety (as appropriate) must notify the Manager, Emergency Preparedness within one business day if any of the following occur with respect to any Entergy Employee or Security personnel:
- Loss of access to the GGNS Protected Area or GGNS EOF, or
 - Invoking any Radworker Restriction, or
 - Failure of any training specified in 01-S-04-21, or
 - Any "restricted duty" status imposed due to medical conditions.
- 6.3.3 The Manager, Emergency Preparedness will, upon notification, temporarily suspend the Emergency Response Organization qualification of any person identified for any reason listed in section 6.3.2 of this procedure.
- 6.3.4 Discipline Training Coordinators must provide Emergency Preparedness with the names of personnel who fill Emergency Plan On-Shift positions. Emergency Preparedness will ensure the names are entered and tracked in the EP Training report under the proper qualification code.
- 6.3.5 Discipline Training Coordinator, ERO Member, and Emergency Preparedness must review the ERO training on a monthly basis. The training should be reviewed for accuracy and to ensure assigned personnel are qualified.
- 6.3.6 The Emergency Preparedness staff must review the training and qualification status (as it pertains to ERO qualification) of all personnel assigned to the Emergency Response Organization. Any problems or concerns as a result of this review will be brought to the attention of the responsible management for resolution.
- 6.3.7 If any ERO member fails to properly maintain their qualification in accordance with management expectations listed in Section 6.4, the Manager, EP, must issue a Condition Report to document the occurrence. In addition to the Condition Report and at the discretion of the Manager, EP, the disqualified person and their direct supervisor may meet with the Plant General Manager, Facility Process Owner, Director, Nuclear Safety Assurance, and Manager, EP to explain the reason for failure to maintain their qualification. The Manager, EP is responsible for establishing the meeting time/place.
- 6.4 Emergency Response Organization Personnel Requirements
- 6.4.1 Personnel assigned to the Emergency Response Organization must:
- Maintain ERO qualifications for your position including EP Training and additional specific training such as licenses, respirator qualifications, RWT training, FFD training, etc., and inform the Emergency Preparedness Staff immediately of any change in status.

Title: Emergency Response Organization	No.: 01-S-10-6	Revision: 15	Page: 7
--	----------------	--------------	---------

6.4.1 (Cont.)

- b. Attend scheduled training and, if unable to attend, provide prior notification to your supervisor and to the instructor.
- c. Ensure that assigned pager is worn and turned on during the individual's on-call week.
- d. Be fit for duty and available to respond to the appropriate emergency response facility, within your designated response time listed in Attachment II, for your entire assigned duty period if notified or instructed to report. Personnel should report promptly but safely.
- e. If circumstances prohibit response within the required times, ensuring that an alternate (from the same ERO position) has agreed to and is available for emergency response coverage, and notify Emergency Preparedness of the arrangements made.

6.4.2 In addition, ERO personnel should recognize the expectation of Nuclear Management Manual PL-147, including:

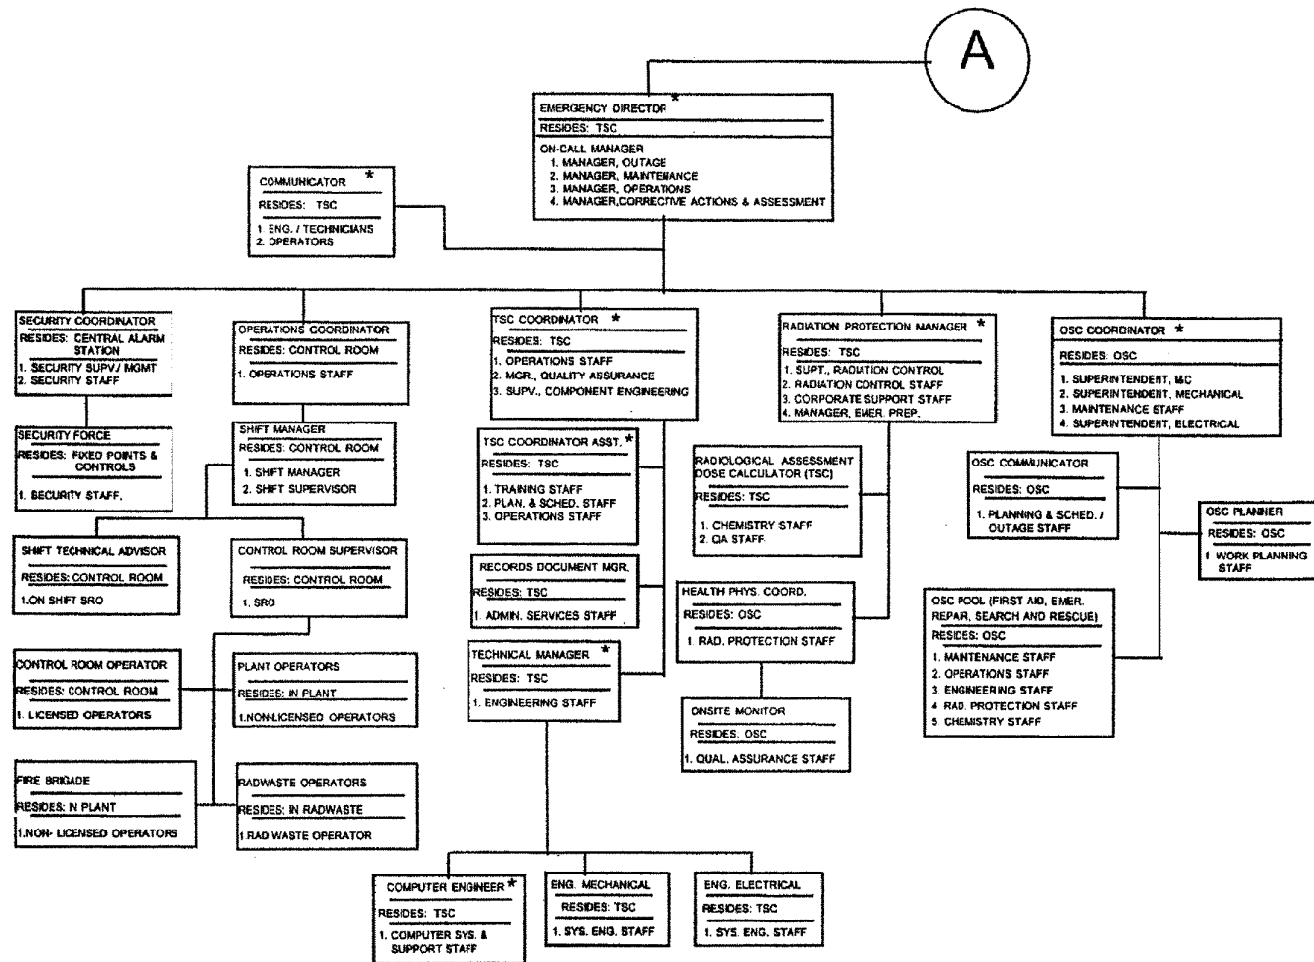

- a. Actively support the ERO as a participant, drill control team member, evaluator or coach in drills or exercises (including pre-drill/exercise activities) for which you are scheduled. If you are unavailable, it is your responsibility to find a qualified replacement and inform him or her of the assigned function in the drill and/or exercise.
- b. When newly selected for the ERO, attain full qualifications as soon as possible.
- c. Respond promptly to notification tests (VIP 2000) and off-hours or unannounced drills.
- d. Be prepared to have your ERO participation evaluated as part of the annual Performance Planning and Review (PP&R) process.

6.5 Management expectation of Non-Emergency Response Organization Personnel

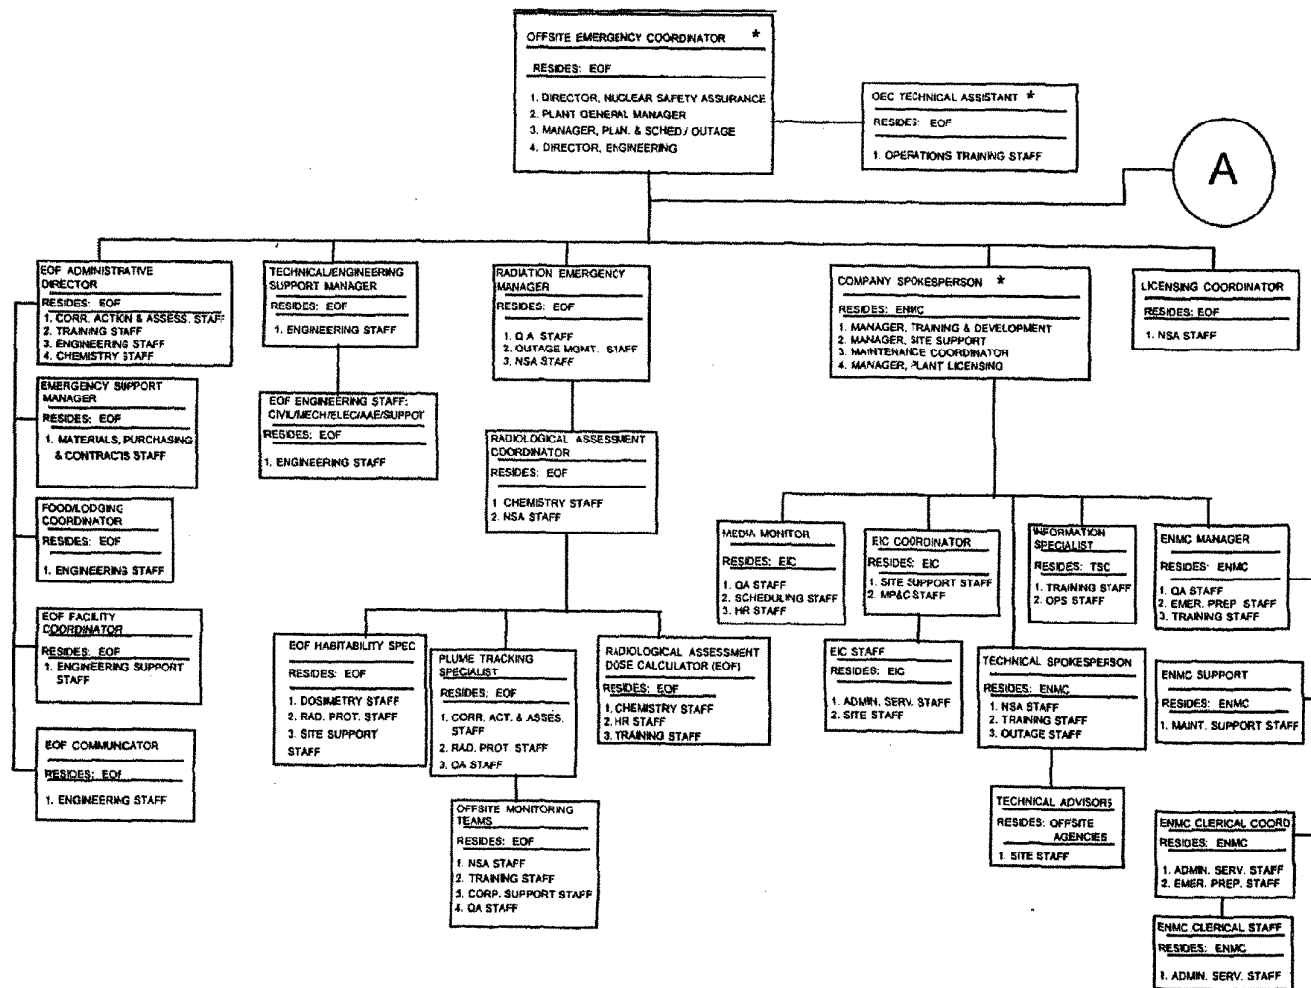

6.5.1 The full response to an event at GGNS consists of all available resources. Therefore, Management has the following expectations for those persons not specifically assigned to the ERO, who may be called upon to support the emergency response effort:

- a. Every company employee is eligible for assignment.
- b. Personnel are assigned emergency positions based on their experience, expertise, knowledge and ability.
- c. Company employees should respond to perform specific duties, as requested, in support of the emergency response.
- d. Employee compensation for supporting emergency response is to be handled in accordance with company policies and procedures.

- Notes:
1. Number of personnel indicated in this column are required to maintain minimum four (4) section Emergency Response Organization coverage.
 2. Regulatory requirement.
 3. Overall direction of the emergency response effort will be assumed by the Offsite Emergency Coordinator when all facilities are fully manned. Direction of the minute-to-minute operation and control of the plant remains with the Emergency Director in the TSC or Control Room.
 4. May be covered by personnel assigned other functions.
 5. This position does not have a fixed time response requirement. However, personnel assigned to this position are expected to be able to respond to their facility on a not-to-delay basis but within 90 minutes. When responding, personnel are expected to observe all traffic regulations and safety rules.
 6. These ERO positions may be vacant for not more than two hours, in order to provide for unexpected absences, provided action is taken to fill the required positions. This allowance is not applicable during declared emergencies.
 7. If personnel are on-site, they will report and augment shift personnel as soon as possible without delay, but no later than 45 minutes.

01-S-10-6	Revision: 15
Attachment III	Page 1 of 9

ERO POSITION DESCRIPTIONS**Offsite Emergency Coordinator**

1. Overall emergency response effort when all facilities are manned. He provides guidance to the Emergency Director as appropriate. The Emergency Director, however, maintains responsibility for the operation and control of the plant.
2. Official communications released from the plant and for management level interface with federal, state and local agencies.
3. Making protective action recommendations to state and local agencies after the EOF is operational.
4. Assuring continuity of technical, administrative, and material resources throughout the emergency, and for providing any needed plant support from federal, state or local agencies.
5. Initiating the recovery phase of the emergency.
6. Is the Site Vice President or designated alternate.

Emergency Director - Is responsible for:

1. Overall emergency response effort until relieved of this function by the Offsite Emergency Coordinator.
2. Minute-to-minute operation and control of the plant.
3. Continuous assessment of actual plant and radiological conditions.
4. Assess and classify the emergency situation, especially where a real or potential hazard to offsite persons or property exists. (The Offsite Emergency Coordinator assumes this responsibility once the EOF is declared operational).
5. Making operational decisions involving the safety of the plant and its personnel and make recommendations to the Control Room personnel. In the event of security emergencies, he should evaluate each security related incident and activate only those support groups and facilities that are needed, regardless of the emergency classification, so as to minimize the risk to personnel.
6. Notifying and recommending protective actions to authorities responsible for offsite emergency measures. (The Offsite Emergency Coordinator assumes this responsibility once the EOF is declared operational)
7. Implementing the GGNS Emergency Plan through the use of specific Emergency Plan Procedures.
8. Requesting additional resources as deemed necessary up to and including activation of the Emergency Response Organization as required.

01-S-10-6	Revision: 15
Attachment III	Page 2 of 9

ERO POSITION DESCRIPTIONS (Continued)

9. Notifying and informing the offsite support officials of pertinent facts and development.
10. Requesting assistance from Federal and State agencies if required. (The Offsite Emergency Coordinator assumes this responsibility once the EOF is declared operational.)
11. Activating the VIP 2000, after the TSC is declared operational.

Technical Support Center Communicator

1. Reports directly to the Emergency Director and is responsible for periodic notification of Federal, State and Local agencies.

ENS Communicator

1. Reports directly to the Emergency Director and is responsible for notification and communications with the NRC via the Emergency Notification System telephone. The ENS Communicator relieves the TSC Communicator of this responsibility.

Security Coordinator

1. Reports directly to the Emergency Director and is responsible for the command and control of the security force during an emergency.

Security Force

1. Reports to the Security Coordinator/Security Shift Supervisor and is responsible for site access control and personnel accountability.

Operations Coordinator

1. Reports directly to the Emergency Director and performs the following actions during an emergency:
 - a. Coordinates operations activities between Control Room, TSC and OSC Coordinator.
 - b. Provides technical assistance to the Shift Manager.

Shift Manager

1. Reports directly to Operations Coordinator and is responsible for the command and overview of the minute-to-minute plant operations and assessment of operational aspects. When the Shift Manager assumes Emergency Director position Shift Supervisor assumes Control Room Overview function.

Control Room Supervisor

1. Reports directly to Shift Manager and is responsible for the minute-to-minute plant operation and assessment of operational aspects. Control Room Supervisor is responsible for the implementation of the Emergency Procedures.

01-S-10-6	Revision: 15
Attachment III	Page 3 of 9

ERO POSITION DESCRIPTIONS (Continued)**Shift Technical Advisor**

1. Shift Technical Advisor (STA) reports directly to Shift Manager and is responsible for monitoring and advising Control Room Supervisor on status of critical plant parameters. Any of the three SROs STA Qualified assigned to the operating shift may fulfill the STA position. The STA covers the core/thermal hydraulic function until relieved by the TSC Coordinator.

Control Room Operator

1. Reports directly to Control Room Supervisor and is responsible for the physical operation of plant equipment from the Control Room.

Plant Operator

1. Reports directly to Control Room Supervisor and is responsible for operation of plant equipment outside the Control Room.

Control Room Communicator

1. Reports directly to Emergency Director and is responsible for notification of the Federal, State and Local agencies until relieved by the responding TSC Communicators.

Radwaste Operator

1. Reports directly to Control Room Supervisor and is responsible for the operation of plant equipment in the radwaste area.

Fire Brigade

1. Consists of a Fire Brigade Leader and four responding members. Fire Brigade members report directly to the Fire Brigade Leader and are responsible for responding to, control and extinguishing of any fire that occurs on site. Fire Brigade Leader reports directly to Shift Supervisor (overview function) and is responsible for command and direction at the scene of the fire.

Technical Support Center Coordinator

1. The TSC Coordinator reports to the Emergency Director and is responsible for the assimilation of data for the Emergency Director, prioritization of corrective actions, core/thermal hydraulics, and coordination of mitigation efforts.

TSC Coordinator Assistant

1. TSC Coordinator Assistant reports to the TSC Coordinator and is responsible for monitoring the progress of the implementation of Emergency Operating Procedures, providing plant status and corrective action status to the TSC, and communication of emergency information to the OSC, Control Room, and EOF.

01-S-10-6	Revision: 15
Attachment III	Page 4 of 9

ERO POSITION DESCRIPTIONS (Continued)**Technical Manager**

1. Reports directly to Technical Support Center Coordinator and is responsible for the following during an emergency:
 - a. Activities of engineers and technical staff.
 - b. Providing information concerning plant status and for developing recommendations and procedures for plant operation.
 - c. Activating the VIP 2000 upon the Emergency Director's request.

Record Document Manager

1. Reports directly to Technical Support Center Coordinator and provides administrative and logistical services during an emergency.

Radiation Protection Manager or designated alternate

1. Reports directly to Emergency Director and is responsible for the following during an emergency:
 - a. Radiological assessments and development of radiological plans.
 - b. Keeping Emergency Director informed of environmental conditions.
 - c. Determining emergency radiological survey requirements.

On-Call HP

1. Reports directly to Health Physics Coordinator and is responsible for performing activities associated with radiation protection as directed by the Health Physics Coordinator.

On-Shift HP

1. At the declaration of an Alert or higher classification, the On-Shift HP's will respond in support of access control, HP Job Coverage, Personal Monitoring, dosimetry and surveys (In-plant, onsite and offsite).

On-Call Chemist

1. Reports directly to OSC Coordinator and is responsible for obtaining and analyzing required samples to determine the onset or extent of core damage.

Computer Engineer

1. Reports directly to the Technical Manager and is responsible for:
 - a. Investigation and resolution of computer/software problems.
 - b. Assisting with data gathering and analysis.

01-S-10-6	Revision: 15
Attachment III	Page 5 of 9

ERO POSITION DESCRIPTIONS (Continued)**On-Shift Chemist**

1. Upon declaration of an Alert classification or higher, reports to the Control Room and performs Radiological Assessment (Chemistry Samples/Dose Assessment) Function until relieved by the responding RPM or Radiological Assessment Dose Calculator. Reports directly to the Emergency Director during this period.

Upon relief of Radiological Assessment functions, reports to the OSC and is responsible for obtaining and analyzing required samples. Reports directly to the OSC Coordinator during this period.

Health Physics Coordinator

1. Reports directly to Radiation Protection Manager. He is responsible for the following during an emergency:
 - a. Providing radiological support to Operations Support Center Coordinator.
 - b. Dispatching Onsite Monitoring Teams.
 - c. Coordinating activities of Health Physics personnel.

Onsite Monitoring Team

1. Reports directly to HP Coordinator and is responsible for performing radiological surveys outside the power block.

Radiological Assessment Dose Calculator (TSC)

1. At the Alert classification, reports directly to the Emergency Director (Control Room). Performs radiological dose projection activities and provides assistance in radiological assessment and developing Protective Action Recommendations. Reports directly to the RPM when TSC is operational.

Radiological Assessment Dose Calculator (EOF)

1. At the Alert classification, the Radiological Assessment Dose Calculator (EOF) reports directly to the RAC. Performs radiological dose projection activities and provides assistance to the RAC in radiological assessment and developing Protective Action Recommendations.

Operations Support Center Coordinator

1. Reports directly to Emergency Director and is responsible for coordinating OSC activities with Technical Support Center Coordinator and Operations Coordinator during an emergency. This includes mobilization and dispatching Emergency Repair Teams, Search and Rescue Teams, First Aid Teams, and any other required support personnel.

01-S-10-6	Revision: 15
Attachment III	Page 6 of 9

ERO POSITION DESCRIPTIONS (Continued)**OSC Communicator**

1. The responsibility of the OSC Communicator is to provide the OSC Coordinator with current plant status and information on corrective actions in the plant. The OSC Communicator reports to the OSC Coordinator.

OSC Pool

1. Reports directly to OSC Coordinator and provides the personnel resource needed for emergency repair, search and rescue, first aid and any other required support personnel.

OEC Technical Assistant

1. Reports directly to OEC and is responsible for assisting in coordination of matters related to plant operations and engineering. OEC Technical Assistant ensures compliance with appropriate procedures and federal regulations.

EOF Administrative Director - Is responsible for:

1. Administrative duties such as setup and operations of the EOF and equipment, communications, transportation, meals, lodging, clerical support, security, first aid, facility operation and administering alcohol breath test for EOF personnel. The EOF Administrative Director answers questions relating to actions required by the Plan, related implementing procedures, or state/local emergency plans. Reports directly to Offsite Emergency Coordinator.

EOF Communicator

1. Reports to EOF Administrative Director and is responsible for operation of the communications systems at the Emergency Operations Facility and maintenance of logs and records of all official communications.

Technical/Engineering Support Manager

1. The focal point for offsite and non-GGNS engineering support, and reports directly to the Offsite Emergency Coordinator. Technical/Engineering Support Manager is responsible for arranging engineering support, briefing incoming engineers, and assisting in helping them provide assistance to the emergency response effort. He is also responsible for performing evaluations of the status of the reactor core during an emergency.

EOF Electrical Engineer

1. Reports directly to Technical/Engineering Support Manager and is responsible for electrical modification engineering support.

EOF Mechanical Engineer

1. Reports directly to Technical/Engineering Support Manager and is responsible for mechanical modification engineering support.

EOF Civil Engineer

1. Reports directly to Technical/Engineering Support Manager and is responsible for civil modification engineering support.

01-S-10-6	Revision: 15
Attachment III	Page 7 of 9

ERO POSITION DESCRIPTIONS (Continued)**EOF Engineering Support**

1. Reports directly to Technical/Engineering Support Manager and is responsible for providing the EOF with engineering support.

Accident Assessment Engineer

1. Reports directly to Technical/Engineering Support Manager and is responsible for the performance of core damage estimates.

Radiation Emergency Manager

1. Focal point for offsite environmental, radiological, and health physics support. He reports directly to the Offsite Emergency Coordinator and is responsible for arranging such support, briefing incoming environmental and radiological personnel and helping them provide assistance to the emergency effort.

Radiological Assessment Coordinator

1. Reports to Radiation Emergency Manager and is responsible for technical direction of radiological assessment effort that includes offsite dose calculations, offsite radiological monitoring, and environmental sampling activities.

Offsite Monitoring Team

1. Reports directly to Plume Tracking Specialist and is responsible for conducting offsite radiological monitoring and collecting environmental samples.

Offsite Monitoring Team Driver/Assistant reports directly to the OMT Monitor and is responsible for transportation to the required offsite areas and assisting OMT Monitor as required.

Plume Tracking Specialist

1. Reports to Radiological Assessment Coordinator and is responsible for controlling and directing Offsite Radiological Monitoring teams, tracking the plume, and recording field data for use by the EOF Dose Calculation Specialist.

EOF Habitability Specialist - Is responsible for:

1. Reports to Radiological Assessment Coordinator and is responsible for conducting radiological surveys, sampling and analysis activities in the EOF and advising the REM of the results. He maintains the radiological status board in the EOF and ensures that dosimetry is issued to personnel at the EOF.

Emergency Support Manager

1. The Emergency Support Manager is responsible for procuring emergency equipment, supplies, and services for the Emergency Response Organization during a declared emergency. He reports directly to the EOF Administrative Director.

01-S-10-6	Revision: 15
Attachment III	Page 8 of 9

ERO POSITION DESCRIPTIONS (Continued)**OF Food and Lodging Coordinator**

1. Reports directly to EOF Administrative Director and is responsible for arrangements for the logistics necessary to provide food and lodging as required for Emergency Response Organization and administers fitness-for-duty tests for EOF personnel.

EOF Facility Coordinator

1. Reports directly to EOF Administrative Director and assists in the setup and operation of EOF facilities and equipment as required and coordinates EOF security and equipment maintenance.

Company Spokesperson

1. Reports directly to Offsite Emergency Coordinator and is responsible for overall operation of the ENMC. This includes preparation of official news bulletins, conduct of media briefings, and Emergency Information Center Operations during an emergency.

Emergency Information Center Coordinator

1. Reports to Company Spokesperson and is responsible for activation and operation of Emergency Information Center.

Emergency Information Center Staff

1. Reports directly to Emergency Information Center Coordinator and is responsible for providing or correcting information to the public. This support is provided in the form of responding to telephone calls from interested parties.

Media Monitor

1. Reports directly to Company Spokesperson and is responsible for recording and comparing TV and radio newscasts with the official news bulletins and releases for deviations from the facts.

Emergency News Media Center (ENMC) Manager

1. Reports to Company Spokesperson and is responsible for general Emergency News Media Center operations. The ENMC Support Staff and ENMC Clerical Coordinator report to the ENMC Manager.

ENMC Support Staff

1. Reports directly to ENMC Manager and is responsible for initial facility setup, and assisting in overall operation of ENMC.

ENMC Clerical Coordinator

1. Reports directly to ENMC Manager and is responsible for management and coordination of the ENMC Clerical Staff.

01-S-10-6	Revision: 15
Attachment III	Page 9 of 9

ERO POSITION DESCRIPTIONS (Continued)**ENMC Clerical Staff**

1. Report directly to ENMC Clerical Coordinator and are responsible for providing clerical support necessary to distribute news bulletins and to assist in setup of ENMC as required.

Technical Spokesperson

1. Reports to Company Spokesperson and is responsible for answering technical questions from news media regarding emergency situation.

Technical Advisors

1. When the State of Mississippi, Claiborne County, the State of Louisiana, and Tensas Parish activate their Emergency Operations Centers (EOCs) a GGNS representative is dispatched to the EOCs to serve in a technical and operational liaison capacity if requested by the directors of the EOCs. The Technical Advisors report to the Technical Spokesperson.

Information Specialist - Is responsible for:

1. Collection and transmission of technically accurate information to the Company Spokesperson, or designee, during emergency events.

Licensing Coordinator

1. Reports directly to the Offset Emergency Coordinator and is responsible for coordinating any required emergency licensing activities.

Engineering Electrical and Engineering Mechanical

1. Reports directly to the Technical Manager and are responsible for the following during an emergency:
 - a. Provide technical input to the Technical Manager for needed repairs during the emergency.
 - b. Develop emergency repair options and instructions for repairs needed during the emergency.
 - c. Identify materials needed for repairs needed during the emergency.
